APPLICANT'S STATEMENT

I, Jackie Lee the ☐ sole proprietor; ☐ partner; ☒ corporate principal; ☒ LLC/LLP member

of New China Pacific LLC, hereby submit this application for an all alcoholic beverages license (hereinafter the

"Application"), to the local licensing authority (the "LLA") and the Alcoholic Beverages Control Commission (the "ABCC" and together with the LLA collectively the "Licensing Authorities") for approval.

I do hereby declare under the pains and penalties of perjury that I have personal knowledge of the information submitted in the Application, and as such affirm that all statement and representations therein are true to the best of my knowledge and belief. I further submit the following to be true and accurate:

- (1) I understand that each representation in this Application is material to the Licensing Authorities' decision on the Application and that the Licensing Authorities will rely on each and every answer in the Application and accompanying documents in reaching its decision;
- (2) I state that the location and description of the proposed licensed premises does not violate any requirement of the ABCC or other state law or local ordinances;
- (3) I understand that while the Application is pending, I must notify the Licensing Authorities of any change in the information submitted therein. I understand that failure to give such notice to the Licensing Authorities may result in disapproval of the Application;
- (4) I understand that upon approval of the Application, I must notify the Licensing Authorities of any change in the Application information as approved by the Licensing Authorities. I understand that failure to give such notice to the Licensing Authorities may result in sanctions including revocation of any license for which this Application is submitted;
- (5) I understand that the licensee will be bound by the statements and representations made in the Application, including, but not limited to the identity of persons with an ownership or financial interest in the license;
- (6) I understand that all statements and representations made become conditions of the license;
- (7) I understand that any physical alterations to or changes to the size of, the area used for the sale, delivery, storage, or consumption of alcoholic beverages, must be reported to the Licensing Authorities and may require the prior approval of the Licensing Authorities;
- (8) I understand that the licensee's failure to operate the licensed premises in accordance with the statements and representations made in the Application may result in sanctions, including the revocation of any license for which the Application was submitted; and
- (9) I understand that any false statement or misrepresentation will constitute cause for disapproval of the Application or sanctions including revocation of any license for which this Application is submitted.

TIMOTHY LABRIE
LIEUTENANT

To: Mr. Theodore Kozak, Town Manager (Appointing Authority)
From: Walter J. Warchol, Chief of Police *WJW*
Subject: Appointment of a Full Time Police Officer
Date: August 29, 2013

I recently received a certification roster from the Human Resources Division in Boston to fill one (1) full time police officer position. This position is a new position that was funded by the May 2013 Town Meeting to fill a School Resource Officer Position.

I am recommending that Mr. Carmen M. Borelli be appointed to this position. Mr. Borelli has worked as a Permanent Intermittent Police Officer since 2011 and has been a full time dispatcher since April 2013. Mr. Borelli has received excellent job performance reviews by his immediate supervisors in both positions.

If you agree with my recommendation, Mr. Borelli should be appointed as a ***Student Officer*** contingent upon the following attached conditions. The tentative date of appointment will be the first day of the police academy at Reading which is scheduled for September 16, 2013. I would request that you place this appointment on the Board of Selectman's agenda for the September 9, 2013 meeting.

The appointment of Carmen M. Borelli as a ***Student Police Officer*** will be contingent upon the following conditions:

- The Human Resources Division certifies the appointment and the appointments are approved by the Board of Selectmen as required by Town Charter.
- The candidate passes a drug test and all medical and PAT tests conducted under the guidelines of the Human Resources Division, Boston, MA
- Appointment will be as a Student Police Officer and will become a full time police officer after successfully completing the full time police academy conducted by the Municipal Police Training Committee. The full time appointment is subject to available funding.

- If the Student Police Officer is injured he will be covered by workman's compensation and not by MGL 111F.
- The Student Police Officer agrees to reimburse the Town of Northbridge for all recruit training costs incurred by the town during the academy training period if the officer leaves employment with the Northbridge Police Department and is employed with another police agency within a five (5) year period. (See Attached Agreement)
- Candidate will be on a one (1) year probation period following successful completion from the full time academy.
- Candidate cannot smoke tobacco products
- Candidate will be a Wellness Employee
- Candidate must possess a MA Operator's License
- Candidate must possess a Class A License to Carry Firearms issued by the Northbridge Police Department
- New full time police officers appointed after July 1, 2009 are not eligible for the College Incentive Program (Quinn Bill)
- Upon graduation from the full time police academy the officer will be allowed to join the bargaining unit.
- The starting salary for a Student Police Officer is \$728.18.

Summary of Qualifications:

Multi-talented, resourceful professional with: several years of leadership, operations, policy and procedure development experience within corporate, military and municipal service. Skills include: administration, marketing, logistics, and training, mentoring, and supervising staff on military operations and business delivery with proven ability to effectively manage large teams across a broad spectrum of specialties continuously creating value. Collaborative manager with correlated success and a proven and effective business leader possessing detailed knowledge and experience to make an immediate contribution and demonstrated desire for acquiring knowledge and building team loyalty through dedication and best practice for repeat mission success.

I am in my office on a Sunday evening trying to catch up on all my paperwork from a two week vacation.

I do not have a problem with either race, they held them last year. The only condition is that he comply with the traffic detail requirements of the police department for both races. I am sure it will not be a problem as Mr. Rogo complied with our traffic requests last year.

Dear Board Members:

The Northbridge Safety Committee met on Wednesday, July 17, 2013 (10:00 AM) in the Police Station Conference Room. The following members of the Safety Committee were present: Chief Nestor, George Murray, R. Gary Bechtholdt II, Peter Bedigian and James Shuris. Julie Gawlak and Chief Warchol did not attend. Melissa Walker, Paul Halacy, Karlene Ross, Mark Anderson, Eric Bazzett, Jennifer DiStefano, Joseph Bowe, Sue Green, Tom Reed and Paul Hutnak were also in attendance.

Chief Nestor reviewed meeting minutes of January 16, 2013.

A motion was made by George Murray and seconded by R. Gary Bechtholdt II to accept the minutes of the January 16, 2013 meeting; the vote was unanimous (5-0).

The following items were discussed and are being forwarded to the Board of Selectmen as recommendations of the Safety Committee.

CORRESPONDENCE:

- Chief Nestor read memorandum dated February 25, 2013 from Sharon Susienka, Exec. Asst. to the Town Manager stating that on February 11, 2013 the Board of Selectmen accepted the meeting minutes (recommendations) of the 01/16/2013 Safety Committee.

- Jim Shuris provided Safety Committee members with a follow-up concerning the School Street/Providence Road discussion (from January 16, 2013); noting he continues to work with CMRPC (regional planning agency) on signage & pavement markings (improve roadway geometry by adding new pavement lines) and according to representatives at MassDOT the improvements will be done this construction season.

Quaker Street & Allyn Drive –Streetlight request

Peter Bedigian provided the Safety Committee members with a follow-up concerning the Quaker Street and Allyn Drive discussion (from January 16, 2013); noting the streetlight does not appear to be a concern, however suggested the overgrown trees and shrubs at the corner may need to be trimmed back to improve sightlines from Allyn Drive (provided photographs). Mr. Shuris will review concerns, if determined to be within the road's right-of-way (ROW) the DPW will trim the trees. Mr. Shuris will also contact the property owner(s) to coordinate trimming beyond the road ROW.

Linwood Avenue (Linwood Mill) –Pedestrian Crosswalk request

R. Gary Bechtholdt II advised the Safety Committee members that the Owner/Applicant of the Linwood Mill Lofts (as part of the Planning Board approvals) shall provide a pedestrian crosswalk on Linwood Avenue; in addition to providing access across Linwood Avenue the Planning Board desired a physical connection to the terminus of the Mumford Riverwalk. Tom Reed, on behalf of EA Fish Development reviewed proposed location from site driveway (photographs provided). Mr. Bechtholdt provided some aerials with sight distances for two (2) potential pedestrian crosswalk locations (along Linwood Ave). Mr. Bechtholdt suggested the sight distance for the crosswalk location at the site driveway appears to be favorable (±490 feet from Maple Court), however the second location (across from the current terminus of the Mumford Riverwalk) appears to have limited sightlines due to a slight curve in the roadway (Linwood Ave). Safety Committee members agreed.

Mr. Murray suggested the Owner/Applicant provide sidewalk along the same side of Linwood Avenue as the mill (southerly side of Linwood Avenue). Mr. Bechtholdt indicated that the Owner/Applicant may need to work with the Planning Board on this alternative. In regards to the proposed pedestrian crosswalks on Linwood Mr. Shuris stated all crosswalks must comply with the requirements of the MUTCD and ADA regulations; work shall include ADA sidewalk provisions, signage, pavement markings and site distance provisions, each of which shall be determined by an engineer. Mr. Shuris also noted the work would require a right-of-way permit through the DPW. Mr. Reed will review this matter further with the DPW Director and Highway Superintendent.

Members agreed on the proposed site driveway location and disapproved of the second pedestrian crosswalk location (on Linwood Avenue); the Safety Committee withheld its formal recommendation until a traffic engineer conducts the necessary study and present report to the DPW and Safety Committee.

Reference is made to email communication from Monica Luchini, Property Manager Linwood Mill Apartments received April 05, 2013 and January 31, 2013 and email communication from R. Gary Bechtholdt II received July 05, 2013.

Hasting Drive & Douglas Road –Sightline concerns

Paul Hutnak (Douglas Road) reviewed with the Committee safety concerns along Douglas Road; specifically the Hastings Drive intersection. Mr. Hutnak presented an aerial showing the Douglas Road and Hastings Drive, noting there has been a number of accidents (and close calls –bus almost got t-boned by an ambulance) due to the curve of the roadway, condition of the road and overgrown trees & shrubs in proximity to the intersection; the overgrown vegetation reduces sightlines (very poor). Mr. Hutnak also suggested in addition to trimming trees the town may also consider installing a mirror opposite the intersection to help, suggesting better than nothing. Mr. Murray asked if speed may also be an issue. Mr. Hutnak indicated that he thought the speed may also be a factor; Mr. Murray suggested police department should consider monitoring (radar) the area.

Mr. Shuris agreed that the condition of road is poor, noting Douglas Road is included on next year's list for repair.

Upon motion made by (Murray) and seconded (Bedigian) the Safety Committee recommends the Department of Public Works (DPW) review and trim back trees and other vegetation to promote improved sightlines for vehicles exiting from Hastings Drive onto Douglas Road and the DPW Director talk with property owners, if needed to coordinate same. The vote was unanimous (5-0).

Reference is made to email communication from Paul Hutnak received March 22, 2013.

Balmer School –Driveway concerns

Paul Halacy and Melissa Walker, Northbridge School Department and Karlene Ross, Balmer Principal reviewed with the Safety Committee concerns at the Balmer School driveway (Crescent Street). Committee members also reviewed letter from concern parent: (1.) noting buses block street prior to 8:10 AM (park along Crescent Street) which block traffic heading towards Arcade Street; creates traffic conflict for others; (2.) lack of crossing guard at school driveway; creates potential safety concerns for students & (3.) driveway entrance too narrow for buses entering/exiting; traffic stops on Crescent Street for buses to make turns in & out.

Peter Bedigian suggested three (3) potential options: buses show up later (so they don't park along Crescent Street impeding traffic; staff arrive earlier to accept students (so buses and parent drop-off don't congest site driveway, etc.; or hire a crossing guard to assist students and vehicle movement in and out of site (similar to Whitinsville Christian School).

Committee members then reviewed with Melissa Walker observation recorded April 10, 2013 at the Balmer School driveway (Crescent Street) during the period of 8:05AM to 8:27AM: (1.) approx. 26 students crossed at the driveway crosswalk (all but 7 had adults accompanying them) vehicles appropriately and safety yielded to the crossing students; (2.) vehicles exiting school driveway (approx. 7 turning left) turning movements out of driveway (left & right) does not appear to be an issue; (3.) the biggest delay seemed to be a result of the narrowness of the driveway; buses entering need to coordinate with those exiting (site driveway too narrow) adding to congestion and traffic conflicts on Crescent Street.

Mr. Bedigian noted as a Safety Committee member he is charged with looking at the safety concerns; his role is advisory to the Board of Selectmen and recognizes this as a safety concern.

George Murray reviewed with the other Safety Committee members the overall layout of the site including parking area and parent drop-off; suggesting a restriction on turning movements in and out of the site and consideration of having all buses access the school from Lake Street (vicinity) with a right turn only out of the site. Mr. Murray also noted that the buses are larger (longer) than before. Mr. Bechtholdt suggested the concern with the driveway entrance may not be the width, however may have more to do with the angle of the intersection. Mr. Bedigian agreed; may need to improve angle. Mr. Murray suggested the School Department look at potential improvements and work with DPW.

Before taking any formal action the Safety Committee tabled its discussion and scheduled a site visit for Tuesday, July 23, 103 (8:30AM) -Balmer School driveway (Crescent Street), at which time the Committee will observe driveway geometry, etc and make a recommendation. Prior to the site visiting (meeting) Mr. Halacy and Mr. Shuris shall meet onsite to review possible improvements to the driveway/Crescent Street entrance.

Reference is made to email communication from Nancy Spitulnik, Superintendent received July 10, 2013; including documented parent concerns and observations noted above.

Prairie Street –(re)energize streetlight

Chief Nestor reviewed with Safety Committee email communication received by DPW on May 09, 2013 from Collin Chan, resident concerning streetlights recently shut-off along Prairie Street. As a result of no payment the streetlights were turned off by National Grid. R. Gary Bechtholdt II indicated that Prairie Street was accepted by the town in 2009/2010.

Peter Bedigian recommended if the streetlights along Prairie Street meet the town's Streetlight Policy then the lights should be turned back on. Jim Shuris explained that he has since been in contact with National Grid; the cost associated will be approximately \$75/month. The town will need to call Nation Grid for service to reenergize the meter. Mr. Shuris added the street lights are ornamental type fixtures; National Grid does not maintain an inventory for maintenance, repair or replacement. Mr. Bechtholdt suggested if he prefers a different style fixture DPW should coordinate with the Planning Board on street lighting specs, as the lights installed along Prairie Street were approved by DPW at the time.

Upon motion made (Murray) and seconded (Bechtholdt) the Safety Committee recommends that the streetlights along Prairie Street be reenergized and turned back on per the Board of Selectmen's Streetlight Policy. The vote was unanimous (5-0).

Reference is made to email communication from Collin Chan received May 09, 2013; email communication from James Shuris received May 20, 2013 & National Grid letter dated May 15, 2013.

Note: Peter Bedigian was unable to attend the remainder of the Safety Committee meeting and did participate in the review/consideration of Osterman Commerce Park, Shining Rock Drive/Clubhouse Lane or Main Street speed limit discussions detailed below.

Osterman Commerce Park, Planned Business Development –Site plan review

Mark Anderson of Heritage Design Group, representing the developer reviewed subject property and provided an overview of the proposed site development; located off Church Street Extension consists of

±92.2 acres Industrial-zoned land adjacent to the Osterman Propane facility and abuts the Providence & Worcester Railroad. The Planned Business Development proposed includes a ±4,500 LF roadway (private drive), ±206,500 SF of mixed-use building space, ±26.4 acres of dedicated open space, and other associated site improvements. The project is planned to be constructed in 4-phases; Phase 1 (site plan review application) includes ±1,540 LF of roadway (private drive), two (2) buildings; a 24,000 SF Medical office building & a 12,000 SF Office building and 209 parking spaces. Mr. Anderson reminded Safety Committee members that the access drive had previously been reviewed and approved by the Safety Committee.

Safety Committee members reviewed the traffic study with Jennifer DiStefano of PARE Corporation; existing traffic counts, trip generation, sight distances, etc. Mr. Bechtholdt informed members that the applicant is seeking approval for Phase 1 & Phase 2 at this time; phase 1 being the medical building and office building and phase 2 the wetland crossing. Phases 3 & 4 will be considered and reviewed at a later date, at which time the Safety Committee will have another opportunity to review and offer its recommendations.

Committee members then reviewed specifically Plummers Corner and the Quaker Street intersections. Ms. DiStefano indicated signalization at Quaker Street is warranted today under the No-Build scenario. Mr. Anderson added that they are looking, in working with Mass Highway to implement a dynamic-maximum green for Plummers corner and will be conducting a traffic monitoring program over a 5-year period.

Mr. Shuris indicated that he is looking at Church Street Extension and the Quaker Street intersection specifically to be included on the state's TIP –transportation improvement program with MassDOT. Mr. Murray asked about the responsibility of the developer adding to the problem and inquired about sidewalks along Church Street Extension.

Mr. Bechtholdt explained that the roadway is proposed to remain private and shall have a street name of Commerce Drive; Chief Nestor did not have a problem with the naming of the street. Mr. Bechtholdt also noted that the developer will install sidewalk along Church Street Extension from the site driveway to the Blackstone River & Canal Heritage State Park.

A motion was made by Mr. Murray and seconded by Mr. Bechtholdt to recommend that the developer install a traffic signal at Quaker Street intersection and install sidewalk along Church Street Extension (toward Plummers Corner) as part of Phase 1; vote did not carry (2-2). Mr. Shuris agreed signalization was necessary now, yet felt based upon the traffic report presented there would be no further impact on traffic and would not call for signalization.

Upon motion made (Shuris) and seconded (Bechtholdt) the Safety Committee approved the street name (Commerce Drive) and recommending no additional traffic mitigation at this time. The vote was 3-1 with Mr. Murray voting in the minority. In taking such action members noted as part of Phase 3 & 4 development the Safety Committee shall review traffic and potential mitigation.

Reference is made to site development plan entitled "Osterman Commerce Park –Planned Business Development" prepared by Heritage Design Group dated May 17, 2013 and Traffic Impact Analysis prepared by PARE Corp. dated February 2013 (revised March 2013).

Shining Rock Drive & Clubhouse Lane –Speeding concerns

Sue Green and Joseph Bowe of Shining Rock Golf Community met with the Safety Committee to share their concerns regarding traffic and excessive speeds through the neighborhood, noting there is no police presence to enforce the 30mph posted speed limit; adding they would like to see the speed limit reduced to 25mph. Ms. Green & Mr. Bowe expressed concerns with the high volume of traffic cutting through the neighborhood.

Chief Nestor shared with the other Safety Committee members information provided by Chief Warchol; indicating the last time the Police Department monitored (radar speed limit sign) the area the average speed was less than 25mph. Chief Nestor added the Police Chief does not support posting speed limit signs where the town cannot legally enforce; posted speed are based upon roadway type, geometry, density, etc.

Mr. Bowe explained that he is aware of this concern and has done the research to support the 25mph request. Mr. Bowe asked if he could work with the Northbridge Police Department to help file the necessary paperwork.

Upon motion made (Murray) and seconded (Shuris) the Safety Committee recommends the Police Department monitor speeds along Shining Rock Drive, Fairway Drive & Clubhouse Lane (Shining Rock Golf Community) during the hours of 7AM-8AM and 4PM-6PM and supports the residents (Mr. Joseph Bowe) willingness to file the necessary paperwork required to reduce the posted speed limit from 30mph to 25mph. The vote was unanimous (4-0).

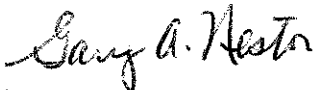

Main Street –Request for speed limit sign

Chief Nestor read communication received from James Anderson of 444 Main Street; expressing concerns of speeding cars, etc. along Main Street. Committee members felt introducing more of a police presence (or reinstalling the radar speed limit sign) may have a greater impact than installing larger speed limit signs.

Upon motion made (Murray) and seconded (Shuris) the Safety Committee recommends the Police Department monitor speeds along Main Street (vicinity of North Main) during the AM/PM peak hours.

Having no other business the Safety Committee adjourned its meeting of July 17, 2013 at 12:10 PM.

Very truly yours,

Hi Sharon!

This is a request from the Northbridge Special Education Parent Advisory Council to hang a banner across Church Street from December 1– December 8, 2013 to promote "National Inclusive Schools Week", which is recognized from December 2, 2013 – December 6, 2013.

We have already hung the banner the precious three years so we are in compliance with the banner requirements. If you could please put this on the Selectmen's calendar for approval, we would greatly appreciate it.

Thank you.

Whitinsville, MA 01588

Dear Ted,

OK to use
Common on
Oct. 4 + 5

* Oct 6th has
been taken

Alternatives would like to have permission to use the Whitinsville Town Common for a community art project in celebration of World Smile Day® on Friday, October 4, 2013. World Smile Day® was established, so that we may devote one day each year to smiles and kind acts throughout the world in honor of Harvey Ball, a commercial artist from Worcester, MA who created the smiley face in 1963.

The art project consists of paper plates that have been colored with pictures and smiley faces and written on by individuals we serve, staff at Alternatives, and the community at large in answer to the question "What do you do to help make other's smile?"

We would like to hang these plates in the common along the walkway, so that they can be viewed by people walking through the common on that Friday, Saturday and Sunday. We will also be creating more plates during the day on Friday, so we would like to set-up a few tables and chairs with supplies for people to participate. We will remove the exhibit by Sunday, October 6, 2013, before 5:00 pm. -NO

Thank you for your consideration.

Sincerely,

Dennis H. Rice
Executive Director

Welcome to the World Smile Day® 2013.

In recognition of World Smile Day, Alternatives is sponsoring a community art project in three area locations in Central Mass. Staff, individuals served, family, and the community at large will be asked the question "How do you make others smile?" They will answer the question by drawing and writing on paper plates that then will be hung in town commons on World Smile Day, Friday, October 4th.

As is well known by now throughout the world Harvey Ball, a commercial artist from Worcester, Massachusetts created the smiley face in 1963. That image went on to become the most recognizable symbol of good will and good cheer on the planet.

As the years passed Harvey Ball became concerned about the over-commercialization of his symbol, and how its original meaning and intent had become lost in the constant repetition of the marketplace. Out of that concern came his idea for World Smile Day®. He thought that we, all of us, should devote one day each year to smiles and kind acts throughout the world. The smiley face knows no politics, no geography and no religion. Harvey's idea was that for at least one day each year, neither should we. He declared that the first Friday in October each year would henceforth be World Smile Day®. Ever since that first World Smile Day® held in 1999, it has continued every year in Smiley's hometown of Worcester, MA and around the world.

After Harvey died in 2001, the Harvey Ball World Smile Foundation was created to honor his name and memory. The Foundation continues as the official sponsor of World Smile Day® each year.

ARTICLE 9: (Petition)

To see if the Town will vote to amend its Zoning Bylaws by adding as "Article XX Large Scale Solar Photovoltaic Installations" the following:

Article XX

Large Scale Solar Photovoltaic Installations

§ 173-133 Purpose

The purpose of this bylaw is to reasonably regulate large-scale ground-mounted solar photovoltaic installations by providing standards for the placement, design, construction, operation, monitoring, modification and removal of such installations that address public safety, minimize impacts on scenic, natural and historic resources, and to provide adequate financial assurance for the eventual decommissioning of such installations.

§ 173-134 Applicability

This bylaw applies to large-scale ground-mounted solar photovoltaic installations, as defined herein, proposed to be constructed after the effective date of this bylaw. This bylaw also pertains to physical modifications that materially alter the type, configuration, or size of these installations or related equipment.

The bylaw is not intended to regulate systems of less than 250 kW or roof-mounted systems. It is also not intended to regulate systems that are consumptive power systems, where all power that is generated is utilized to power onsite operations.

§ 173-135 Definitions

Building Permit: A permit issued by the Building Inspector allowing for the construction of a large-scale ground-mounted solar photovoltaic installation consistent with the state and federal building codes and the Zoning Bylaw.

Large-Scale Ground-Mounted Solar Photovoltaic Installation (LGSPI): A solar photovoltaic system that is structurally mounted on the ground and is not roof-mounted, has a minimum nameplate capacity of 250 kW DC, and generates power utilized at least in part off-site.

Rated Nameplate Capacity: The maximum rated output of electric power production of the Photovoltaic system in Direct Current (DC).

Zoning Bylaw: The Northbridge Zoning Bylaw.

§ 173-136 General Requirements

The following requirements are common to all for all Large Scale Solar Power Generation Installations.

A. Compliance with Laws, and Regulations

The construction and operation of all LGSPI shall be consistent with all applicable local, state and federal requirements, including but not limited to all applicable safety, construction, electrical, and communications requirements. All buildings and fixtures forming part of a solar photovoltaic installation shall be constructed in accordance with the State Building Code. Provided that the provisions of Article XVI (Route 146 Overlay District) shall not apply to an LGSPI.

B. Building Permit

No LGSPI shall be constructed, installed or modified except pursuant to a building permit. The building permit application for a LGSPI must be accompanied by the required fee.

C. Site Plan Review

No LGSPI shall be constructed, installed or modified except in conformity with a site plan approved by the Planning Board in accordance with the Zoning Bylaw. The Planning Board shall consider and apply the requirements set forth in this bylaw in reviewing and deciding an application for site plan approval. Upon receipt of an application for site plan approval of a LGSPI, the Planning Board may engage, at the applicant's cost, professional and technical consultants, including legal counsel, to assist the authority with its review of the application, in accordance with the requirements of Section 53G of Chapter 44 of the Massachusetts General Laws. The Planning Board may direct the applicant to deposit funds with the Planning Board for such review at the time the application is accepted, and to add additional funds as needed upon notice. Failure to comply with this section shall be good grounds for denying the application. Upon approval of the application, any excess amount in the account attributable to that project, including any interest accrued, shall be repaid to the applicant.

D. Site Control

The project proponent shall submit documentation of actual or prospective access and control of the project site sufficient to allow for construction and operation of the proposed solar photovoltaic installation.

E. Operation & Maintenance Plan

The project proponent shall submit a plan for the operation and maintenance of the LGSPI, which shall include measures for maintaining safe access to the installation, storm water controls, and general procedures for operational maintenance of the installation.

F. Utility Notification

No LGSPI shall be constructed until evidence has been given to the Planning Board that the utility company that operates the electrical grid where the installation is to be located has been informed of the solar photovoltaic installation owner or operator's intent to install an interconnected customer-owned generator. Off-grid systems shall be exempt from this requirement.

G. Design Standards

1. Utilization

LGSPI in R1, R2, and V, no more than 65% of the parcel shall be utilized for the entire installation, including screening.

2. Setbacks and Screening

Front, side and rear yards for LGSPI shall be as follows:

- (a) Front yard. The front yard depth shall be at least 100 feet
- (b) Side yard. Each side yard shall have a depth at least 50 feet
- (c) Rear yard. The rear yard depth shall be at least 50 feet

Every abutting property shall be visually screened from the LGSPI through any one or combination of the following: location, distance, plantings, existing vegetation and fencing (not to exceed 6 feet in height).

3. Appurtenant Structures

All appurtenant structures to a LGSPI shall be subject to the same regulations that pertain to primary structures as set forth in the Zoning Bylaw.

4. Landscaping

The project proponent shall submit a landscape plan detailing all proposed changes to the landscape of the site, including temporary or permanent roads or driveways, grading, vegetation clearing and planting and screening vegetation and/or fences/walls.

5. Land Clearing & Grading, Soil Erosion and Habitat Impacts

Clearing of natural vegetation shall be limited to what is necessary for the construction, operation and maintenance of the LGSPI or otherwise prescribed by applicable laws, regulations, and bylaws. Land clearing and grading plans shall avoid practices that cause erosion and shall minimize habitat disruption.

6. Lighting

Lighting of LGSPI, including appurtenant structures, shall be consistent with local, state and federal law, and otherwise shall be limited to that required for safety and operational purposes. It shall be designed to minimize glare on abutting properties and be directed downward with full cut-off fixtures to reduce light-pollution.

7. Signage

Signs on LGSPI shall comply with all applicable legal requirements, including the Zoning Bylaw. One sign consistent with the Zoning Bylaw shall be required to identify the owner and provide a 24-hour emergency contact phone number.

Solar photovoltaic installations shall not be used for displaying any advertising except for reasonable identification of the manufacturer or operator of the solar photovoltaic installation.

8. Utility Connections

Reasonable efforts, as determined by the Planning Board, shall be made to place all utility connections from the solar photovoltaic installation underground, depending on appropriate soil conditions, shape, and topography of the site and any requirements of the utility provider. Electrical transformers for utility interconnections may be above ground if required by the utility provider.

H. Monitoring and Maintenance

1. Solar Photovoltaic Installation Conditions

The owner or operator of the LGSPI shall maintain the facility in good condition. Maintenance shall include, but not be limited to, painting, structural repairs, and integrity of security measures. Site access shall be maintained to a level acceptable to the Fire Chief and local emergency medical services. The owner or operator shall be responsible for the cost of maintaining the solar photovoltaic installation and any access road(s), unless accepted as a public way.

2. Emergency Services

Prior to issuance of a building permit, the LGSPI owner or operator shall provide a project summary, electrical schematic, and approved site plan to the town's local safety officials, including the Police Chief, Fire Chief and Building Inspector.

Upon request the owner or operator shall cooperate with local safety officials in developing an emergency response plan, which may include ensuring that emergency personnel have immediate, 24-hour access to the facility. All means of shutting down the solar photovoltaic installation shall be clearly marked. The owner or operator shall identify a responsible person for public inquiries throughout the life of the installation, and shall provide a mailing address and telephone number for such person(s).

I. Modifications

All material modifications to a LGSPI made after issuance of the required building permit shall require approval by the Planning Board through Site Plan Review.

J. Discontinuance and Removal

1. Removal Requirements

Any LGSPI, or any substantial part thereof, not used for a period of one continuous year or more without written permission from the Planning Board, or that has reached the end of its useful life, shall be considered discontinued, and shall be removed. Upon written request from the Building Inspector addressed to the contact address provided and maintained by the owner or operator as required above, the owner or operator shall provide evidence to the Building Inspector demonstrating continued use of the LGSPI. Failure to provide such evidence within thirty days of such written request shall be conclusive evidence that the installation has been discontinued. Anyone intending to decommission and/or remove such an installation shall notify the Planning Board and Building Inspector by certified mail of the proposed date of discontinued operations and plans for removal.

The owner or operator shall physically remove the installation no more than 150 days after the date of discontinued operations. Removal shall consist of:

- (a) Physical removal of all parts of and appurtenances to the LGSPI, including structures, equipment, security barriers and transmission lines from the site.
- (b) Disposal of all solid and hazardous waste in accordance with local, state, and federal waste disposal regulations.
- (c) Stabilization or re-vegetation of the site as necessary to minimize erosion. The Planning Board may allow the owner or operator to leave landscaping or designated below-grade foundations in order to minimize erosion and disruption to vegetation.
- (d) Gravel or ground cover consistent with landscape.

If the owner or operator of the LGSPI fails to remove the installation in accordance with the requirements of this section, the town shall have the right, to the extent it is otherwise duly authorized by law, to enter the property and remove the installation at the expense of the owner of the installation and the owner(s) of the site on which the facility is located.

2. Financial Surety

Proponents seeking to construct and operate an LGSPI shall provide, prior to construction, a form of surety, either through escrow account, bond or otherwise, to cover the cost of removal in the event the town must remove the LGSPI and remediate the landscape. The amount and form of such surety shall be determined by the Planning Board. Such surety will not be required for municipally- or state- owned facilities. The project proponent shall submit a fully inclusive estimate of the costs associated with removal, prepared by a qualified engineer. The amount shall include a mechanism for calculating increased removal costs due to inflation; or take any other action relative thereto.

ARTICLE 11: (Petition)

To see if the Town will vote to:

RESTORING CONSTITUTIONAL GOVERNANCE RESOLUTION OF NORTHBRIDGE, MASSACHUSETTS

WHEREAS, the town of Northbridge, Massachusetts is not a "battlefield" subject to the "laws of war;" and

WHEREAS, Federal Judge Katherine Forrest has ruled Section 1021 of the 2012 NDAA is unconstitutional;

WHEREAS, the U.S. Supreme Court has ruled that neither Congress nor the President can Constitutionally authorize the detention and/or disposition of any person in the United States, or citizen of the United States “under the law of war” who is not serving “in the land or naval forces, or in the Militia, when in actual service in time of War or public danger;” and

WHEREAS, for the purposes of this resolution, the terms “arrest,” “capture,” “detention under the law of war,” “disposition under the law of war,” and “law of war” are used in the same sense and shall have the same meaning as such terms have in the 2012 NDAA, Section 1021(c); and therefore

BE IT RESOLVED, that notwithstanding any treaty, federal, state, or local law or authority, enacted or claimed, including, but not limited to, an authorization for use of military force, national defense authorization act, or any similar law or authority enacted or claimed by Congress or the Office of the President directed at any person in Northbridge, who is not serving “in the land or naval forces, or in the Militia, when in actual service in time of War or public danger,” it is unconstitutional, and therefore unlawful for any person to:

- a. arrest or capture any person in Northbridge, or citizen of Northbridge, within the United States, with the intent of “detention under the law of war,” or
- b. actually subject a person in Northbridge, to “disposition under the law of war,” or
- c. subject any person to targeted killing in Northbridge, or citizen of Northbridge, within the United States; and be it further

RESOLVED, that the Town of Northbridge requests the Massachusetts State Legislature recognize the duty of the Commonwealth of Massachusetts to interpose itself between unconstitutional usurpations by the federal government or its agents and the people of this state, as well as the duty to defend the unalienable natural rights of the people, all of which is consistent with our oaths to defend the Constitution of the United States and the Constitution of the Commonwealth of Massachusetts against all enemies, foreign and domestic; and be it further

RESOLVED, that the Town of Northbridge requests our Congressional delegation commence immediately with efforts to repeal the unconstitutional sections of the 2012 NDAA, to-wit, sections 1021 and 1022, and any other section or provision which will have the same or substantially the same effect on any person in the United States not serving “in the land or naval forces, or in the Militia, when in actual service in time of War or public danger;” and be it finally

RESOLVED, that the Town of Northbridge requests our Congressional delegation to introduce, support, and secure the passage of legislation which clearly states that Congress not only does not authorize, but in fact prohibits the use of military force, military detention, military trial, extraordinary rendition, or any other power of the “law of war” against any person in the United States not serving “in the land or naval forces, or in the Militia, when in actual service in time of War or public danger.”

Recognizing our duty to defend the Constitution of the United States and the Constitution of the Commonwealth of Massachusetts, as well as recognizing the duty of the people to protect our unalienable natural rights to “life, liberty, and the pursuit of happiness” as articulated in the Declaration of Independence, we, the Town Meeting of Northbridge, Massachusetts, do hereby adopt this resolution.

And you are directed to serve this warrant by posting attested copies thereof at the Whitinsville Post Office in Whitinsville and Brian's Restaurant in Linwood, in Precinct 1; Office of Polyfoam Corp., Gary's Variety and the Northbridge Post Office in Northbridge, all in Precinct 2; Town Clerk's Office and 1Quikstop in Whitinsville in Precinct 3; and the VFW Hall [875 Hill Street] and Town Hall Annex in Whitinsville in Precinct 4; twenty-eight (28) days at least before the time and place of meeting aforesaid.

WHEREOF FAIL NOT, and make due return of the warrant, with your doings thereon, to the Town Clerk at the time and place of said meeting. GIVEN under our hand this 9th day of September in the year Two Thousand Thirteen.

SELECTMEN OF NORTHBRIDGE

Daniel J. Nolan, Chairman

James R. Marzec

Charles Ampagoomian, Jr.

Executive Summary

GeoTMS® is a networked, multi-user land management solution built for municipal workers by municipal workers. **GeoTMS®** offers the ultimate in flexibility and usability by combining mission critical applications into one seamless solution. **GeoTMS®** allows the municipality to truly benefit from advanced technology in a straightforward user-friendly solution. **GeoTMS®** cuts costs by streamlining the permit, inspection, notification, and reporting processes across the enterprise.

The **GeoTMS®** mission is to provide the best of technology, in easy-to-use formats, to each municipal employee working on parcels, structures, and projects. Each departmental module is a complete product in its own right, providing all department needs. When linked over a network, the **GeoTMS®** modules enable departments to share information, see the results of each other's work, flag projects and automatically notify departments. This module approach allows communities to create custom solutions that truly fit their individual needs.

Benefits:

- Easy to use work environment- Users become proficient quickly through a user-friendly design.
- Work Flow Mimicked- Each module mimics the work flow of land management departments. Users find that they need to reorganize very little of their everyday work patterns.
- Integrated technologies- Users find that they have access to the best of technology. GIS is integrated.
- Everyone Benefits- Different user sets will be pleased with the reliability of the software, the training, and the responsiveness of the support team.
- Productivity and Efficiency increase- Users find that departments using **GeoTMS®** operate better individually and that there is far greater productivity across city hall.
- Information Sharing- Each department shares information throughout the municipality.
- Security- While information is shared, strict departmental security is maintained ensuring that information integrity is maintained.

GeoTMS® is a commercial off-the-shelf solution that streamlines the permit, inspection, land management, notification, and reporting processes of the municipality. **GeoTMS®** allows users to benefit from a centralized database and integrated technologies. **GeoTMS®** is built and maintained by a team of professionals understand the day-to-day activities and needs of end users. This has allowed product development to focus on the needs of the users as the product is continuously enhanced. By employing this methodology, our users all benefit from the entire user community's requests and our continuous development efforts.

DMS has developed **GeoTMS®** Software with the goal of providing complete licensing and permitting capability for local governments with their land management function.

GeoTMS® was designed to automate the daily work of local government land management departments. Our research and subsequent product development has propelled us into a becoming nationally recognized experts in the field of municipal land management automation.

The following is a summary of the **GeoTMS®** Solution functions:

- Establish a common database for processing and tracking application & permits
- Electronically automate all permitting processes across a town-wide network
- Process and track information through building stages from permits to occupancy.
- Track all involved parties: Owner, Applicant, Contractor, and Architect.
- Track complaints and inspections and the actions taken.
- Generate notices, letters, & mailing lists.
- Customize, issue and print letters, permits, certificates, notifications, and licenses.
- Inspections anywhere and anytime using a handheld computer.
- Easy-to-use Windows graphical user interface.
- Integrated GIS
- In-depth template and customized reporting.

Key benefits:

- Increase accuracy and consistency of application processing.
- Leverage key staff members.
- Reduce time lost in researching status, project history and current revisions.
- Improve turnaround time for development-related project and permit applications.
- Increase the accuracy and consistency of providing status and collection of fees.
- Improve communication among multiple departments.
- Integrate land development and infrastructure information utilizing GIS map layers.
- Reduce legal exposure by keeping accurate logs of project and permit history.
- Provide a mechanism for data storage and retrieval for vital accessory documents including Excel spreadsheets, Word documents, and scanned images.
- Utilize Relational Database Technology.
- Interface with a full range of window compliant printers on any system on the network.
- Ability to export data to other software systems in the Town.
