Department of Public Works & Library Facilities/Update: Present: James Shuris, DPW Director, Thomas Pilibosian, Chairman of the Building, Planning & Construction Committee, and Ronald White, Vice Chairman of the Building, Planning & Construction Committee [BPCC]. Chairman Melia announced that there are two major projects: Department of Public Works Facility and Library Facility and then asked the BPCC to provide timelines on when the projects will begin and finish. Mr. Pilibosian explained that Mr. White has been working with Kaestle Boos Associates (company that did the survey on library roof) to have a representative from Kaestle Boos come to a meeting, which is scheduled for Thursday, January 19, 2012. The representative from Kaestle Boos Associates will discuss the findings with the BPCC and if anyone has questions, the representatives will answer them at that time. A proposal will then be written and sent out for bid. Mr. Pilibosian stated they should be able to move forward with the project after this meeting and he will send a memo to the Board advising them of the progress. Chairman Melia stated that he plans to have the BPCC come monthly to their Board of Selectmen's Meetings to discuss their progress on the library and DPW Facilities. DPW Director James Shuris mentioned that an RFQ was put together five weeks ago, along with a timeline of events. As of now, everything is on schedule: there were 8 RFQs that were distributed, a site tour and pre-conference was held on December 28, 2011. The following items were discussed: 1) whether the DPW can remain at 11 Fletcher Street, 2) Using Green Energy for water power and solar energy, 3) Brownfields Grants or any other grants available for that site. Mr. Shuris mentioned that the RFQs must be delivered by this Wednesday, January 11, 2012 at 10 am. He also indicated that before Town Meeting, the following will be done: **1)** an interim report by March 14, 2012, **2)** a draft report presented to the Board of Selectmen and BPCC on April 4, 2012, and **3)** a final report on April 11, 2012, and **4)** completion and presentation of all material by April 18, 2012. Mr. Shuris then mentioned that he and the BPCC plan to attend the Board of Selectmen's meetings to provide as many updates as possible as they move forward with the DPW facility. Selectman Marzec stated that before he supports the idea of a Department of Public Works facility being rebuilt on Fletcher Street, he wants to make sure the following items are addressed: 1) wetland issues; 2) documentation from Department of Environmental Protection needs to be filed; 3) Infrastructure – sewer hookup and costs associated with hooking up; 4) salt shed issue; 5) Flood Insurance and what will it cost; 6) Cost of the entire project. Selectman Marzec also stated for the record that he doesn't feel the Department of Public Works facility should remain on Fletcher Street. Selectman Ampagoomian asked where the equipment would be stored when the buildings are being renovated and Mr. Shuris replied that the equipment is outside and is currently not housed under a building. He then mentioned that he is working with the Zoning Board of Appeals and Building, Planning and Construction Committee to determine whether or not they can stay on Fletcher Street and build within the flood river zone and what it would cost. Mr. Shuris mentioned that he is also looking for grant opportunities such as the Brownfields Grant to substantially reduce the cost of the DPW facility. Selectman Nolan asked Mr. Shuris if he's had a chance to explore what future upgrades and capacity issues are for the Wastewater Treatment Plant. Mr. Shuris replied that he just had a discussion about this with CDM Smith and one of the large projects right now is an activated sludge improvement project. He stated that the money was appropriated last year (before he was hired) in the amount of 1.2 million for design, engineering and construction and is now in the process to move forward with this project. This project will help improve the sludge capabilities at the Wastewater Treatment Plant and could reduce the operating costs.

Open Meeting Law/Remote participation at meetings. Selectman Marzec announced that he asked for this item to be placed on the agenda because of a request he received from a School Committee member. After researching Mass. General Laws, Remote Participation [940 CMR 29.10] can be done if the Chief Executive Officer authorizes or by a simple majority, vote to allow remote participation in accordance with the requirements of these regulations, with that authorization or vote applying to all subsequent meetings of all local public bodies in the municipality. Selectman Marzec stated that the Board of Selectmen need to adopt remote participation before any board or committee can proceed. He also mentioned that a member of a public body shall be permitted to participate remotely in a meeting, in

accordance with the procedures described in 940 CMR 29.10(7), if the chair or, in the chair's absence, the person chairing the meeting, determines that one or more of the following factor makes the member's physical attendance unreasonably difficult: personal illness, personal disability, emergency, military service or geographic distance. Chairman Melia mentioned that he is not in favor of this policy and if you are an elected official you should attend your meetings. He feels that if the Board of Selectmen adopts the "Remote Participation" policy that boards and committees might take advantage of it and not attend their meetings. Selectman Athanas stated that he is not in favor of this policy and concurred with Chairman Melia, that if you are on a Board or Committee you should be in attendance for your meetings. Selectman Nolan replied that having remote participation could be a positive thing for the individuals who serve on the Disability Commission and Council on Aging, however, he did note that he can also see the negative side to having remote participation as stated by Chairman Melia and Selectman Athanas. Chairman Melia asked Town Manager Kozak to send out an email to various boards and committees for their input on remote participation and then place this item on a future Selectmen's meeting.

Selectman Nolan suggested placing some type of notification, about the Reverse 911 implementation on the water/sewer bills. Town Manager Kozak thought this was a great idea and Chairman Melia concurred with that idea as well.

He mentioned that all three of the competitors were successful in bringing home the top award and their names are as follows: Katherine Puda, Alexander Alfonso, and Jacqueline Puda. **Selectman Ampagoomian 1)** mentioned that there is a double pole located on Cross Street and wanted the Highway Department to look into this to see when it can come down. **2)** Asked about the bridge closure on Providence Road. 2) Petition Articles/Present: Attorney Henry Lane. Mr. Lane discussed three petition articles as stated they relate to two separate pieces of land. The first parcel of land relates to the old Northbridge Nursing Home property located in Rockdale. That said, a local developer would like to develop this into an apartment building but would need this area to be rezoned. **ARTICLE 6 (Petition)** To see if the Town will vote to change the zoning district designation of a parcel of land on the easterly side of Providence Road and on the northerly side of Upton Street in the Village of Rockdale, from Residential Two (R-2) and Residential Three (R-3) to Residential Four (R-4), said parcel being more particularly described as follows:

Beginning at the intersection of the center line of Providence Road and the extension of the northerly line of Upton Street;

Thence Easterly, by the northerly line of Upton Street, a distance of 500 feet;

Thence Northerly, by a line perpendicular to Upton Street, a distance of 120 feet to the existing R-2 / R-3 zone line;

Thence Easterly, by said R-2 / R-3 zone line, located 120 feet northerly of and parallel to the northerly line of Upton Street, a distance of 1,010 feet, more or less, to the I-1 zone line;

Thence Northerly, by the I-1 zone line, a distance of 250 feet, more or less;

Attorney Lane stated the next petition article refers to the site where the old West End School was (located on the corner of Main Street and Water Street) and is looking to have this rezoned for industrial use, to allow for additional development. Mr. Bechtholdt stated that the Planning Board has not had the opportunity to review this but under M.G. Attorney Lane mentioned that this article is a minor amendment to a footnote in the town bylaws. **ARTICLE 8 (Petition):** To see if the Town will vote to amend its Zoning By-Laws by deleting footnote (8) from the Table of Area Regulations and substituting therefore: (8) No building or structure shall be erected within 100 feet of a residential district, except where the zoning district boundary is a street, in which case the set back from the boundary shall be 75 feet and when the boundary is not a street, the buffer shall be landscaped to form a visual buffer zone of a width of natural growth for at least 50 feet (if under the control of the owner), provided that in a Business One (B-1) District that is less than 300 feet in depth, or in a Planned Business Development, no building shall be erected within 50 feet of a residential district.; or take any other action related thereto.

Riverdale Water Company, LLC/Present: James Knott, Founder of Riverdale Water Company & Jayne Knott, Daughter. Mr. Knott provided a PowerPoint presentation on the Riverdale Water Company, along with some handouts. He is proposing to offer up to 277 million gallons of water per year to the 2,234 households served by the Northbridge-owned water distribution system. The Riverdale Water Company has developed, permitted, and constructed a state-of-the-art \$1.1 million pumping station

to source new drinking water at no capital cost to the Town of Northbridge. Mr. Knott introduced his daughter, Jayne Knott, and stated that she's been working on this project with him. Ms. Knott said that the Town currently receives water from two piping systems--the Whitinsville Water Company and the Town of Northbridge. Ms. Knott mentioned that the Town's water system is in desperate need of being upgraded. She also pointed out that Northbridge's current water supply contains levels of iron and manganese, which have caused unsightly stains and damage to personal property. She also noted that recent studies have linked high levels of iron in the brain to Alzheimer's and Parkinson's diseases. Ms. Knott mentioned the pumping station will be ready to supply a healthy and affordable alternative to the Town's existing water supplier as soon as April of this year. She also advised the Board of Selectmen that there are specific steps that need to be taken first before the Town of Northbridge can begin receiving water from the Riverdale Water Company. 1) the Town of Northbridge needs to sign a letter of intent to prove there is a Northbridge customer base for RWC's water; 2) with proof of customer base, RWC applies for necessary permitting through the Massachusetts Department of Environmental Protection to increase the allowed withdrawal volume to meet the water needs of customers served by the Northbridge water distribution system; 3) the Town of Northbridge and RWC sign a contract identifying the company as one of the Town's water suppliers; 4) RWC brings water to Northbridge residents and businesses pending permit approvals; and 5) should RWC become a water supplier for the Town, the company will apply for Federal and/or State grants to fix the inefficient piping system in the Town of Northbridge. Selectman Marzec asked since RWC is going to be supplying water for other Towns, will there be enough to supply Northbridge. Both Jayne Knott and her father replied that the Town of Northbridge is their first priority. Selectman Athanas asked once the pumping station is online, whose responsibility is it to monitor the water quality and Ms. Knott replied that the State monitors/requires frequent testing. Selectman Ampagoomian asked 1) how the billing would be handled for the Northbridge residents and Mr. Knott stated that he would bill the Town not the consumers. 2) Getting grants for pipe maintenance and Ms. Knott mentioned that the grants are not for maintenance but for updating the pipe system. Once they receive a grant, an audit would be performed on the piping system to see if there are leaks. Chairman Melia asked 1) how many permits do they currently have and still need before selling water. Ms. Knott stated these are the permits they currently have: the Source Approval Permit, Water Management Act Permit, and a permit to construct the Pumping Station. Chairman Melia asked Town Manager Kozak if the Town was under any contractual obligations with Whitinsville Water Company. Town Manager Kozak replied that he doesn't know the answer to his question but he believes the Town just purchases water and there is no contract. Mr. Knott stated that Attorney Lane informed him that there was never a contract between the Town of Northbridge and the Whitinsville Water Company. Chairman Melia stated that Town Manager Kozak and the DPW Director James Shuris will look into this further to be certain no contract exists and then they will place this item on a future agenda.

Building, Planning and Construction Committee [DPW Facility Update]/Present: James Shuris, DPW Director and Thomas Pilibosian, Chairman of the Building, Planning and Construction Committee. Mr. Pilibosian mentioned that HKT Architects in Somerville was awarded a contract to conduct a feasibility study for the DPW facility. Mr. Shuris stated that HKT Architects has already completed the following items: a field survey, flagged the wetlands, met 3 times to discuss space needs and operational needs, looked at operations, square footages, current and proposed equipment, and growth within the DPW. Mr. Shuris then stated that HKT Architects has determined that the asset value is around \$3.5 million dollars, pending all the equipment is brand new. He also mentioned that the equipment they have now currently resides outside and should be stored inside. Mr. Shuris said the question that still remains unanswered is whether or not the Highway Department can remain at 11 Fletcher Street; however, there should be a determination soon. Mr. Shuris informed the Selectmen that there is another Building, Planning and Construction Committee meeting this Thursday evening and hopefully he can provide more details and progress at the next Board of Selectmen's meeting. Mr. Pilibosian told the Select Board that his committee was very impressed with HKT Architect's presentation and how they wanted to make the Fletcher Street site more attractive and presentable to the

neighborhood. Selectman Marzec expressed his concerns with the cost of building a new DPW Facility and mentioned that he probably wouldn't support a \$5 million dollar project. He stated that he is looking forward to seeing the cost analysis as well as DEP's Approval. Chairman Melia asked the status of the library roof project and Mr. Pilibosian replied Kaestle Boos Associates is in the process of writing the bid documents. Town Manager Kozak mentioned that someone from Kaestle Boos Associates called him today to say they would be emailing the documents soon to Mr. Pilibosian. The work is scheduled to be done some time in May.

Wastewater Treatment Plant [EPA Permitting]/Present: James Shuris, DPW Director. Mr. Shuris mentioned that the DEP and EPA folks from Worcester toured the Wastewater Treatment Plant site and stated that our treatment plant met all the criteria. He then mentioned there is a new permit coming out in April or May and the criteria will be based on the Rhode Island Water Quality because all of our treated water goes into the Blackstone and then into the Narragansett Bay. Mr. Shuris mentioned the meeting went really well and DEP and EPA were very impressed at how we do things at the Northbridge Wastewater Treatment Plant.

Remote Participation at Meetings. Chairman Melia announced that at a previously held Board of Selectmen's Meeting [January 9, 2012] they discussed "Remote Participation" and asked for Town Boards and Committees to review the regulations under the Open Meeting Law (940 CMR 29.10) and provide their feedback to the Town Manager's Office. Chairman Melia read aloud the feedback provided by some Town Boards/Committees: Zoning Board of Appeals voted unanimously not to support adopting this regulation, the Planning Board voted not to support adopting this regulation, the School Committee voted unanimously to support adopting this regulation, the Conservation Commission voted unanimously to support adopting this regulation, Bill Ferguson from the Building, Planning and Construction Committee supports adoption of this regulation and Stephen Garabedian, Health Agent, stated he is not interested in remote participation. Selectman Athanas mentioned that he is not in favor of adopting this regulation. Selectman Marzec stated that he has not made up his mind yet but would like to know if other communities are supporting this before rendering his decision. Selectman Nolan mentioned that he does not have strong feelings either way but will support adopting this regulation. Selectman Ampagoomian mentioned that after reading the documents provided by the Town Manager's office, he is not in favor of adopting this regulation. Chairman Melia announced that he is not in favor of adopting remote participation in Northbridge but stated that maybe in the future this could be a discussion again. Selectman Marzec suggested that the Board of Selectmen make a definitive decision on whether or not to support the adoption of remote participation. A motion/Mr. Athanas, seconded/Mr. Ampagoomian to move this item from discussion to decisions. Vote yes/Unanimous. A motion/Mr. Athanas, seconded/Mr. Ampagoomian not to support the adoption of remote participation. Vote yes/Messrs. Athanas, Melia and Ampagoomian. Vote no/Messrs. Nolan and Marzec.

Formation of Adhoc Committee for Solar Energy. Town Manager Kozak is recommending an adhoc committee be formed regarding solar energy. The committee would be asked to make recommendations on two private solar energy projects as well as the town's own potential solar projects. He suggested the Solar Energy Committee be comprised of the following: Planning Board Rep., Board of Assessors Rep., Finance Committee Rep., School Department Rep. (or a member of the School Committee), and Board of Selectmen Rep. Selectman Nolan suggested adding one or two Member at Large positions so that if someone from the community has a strong interest in participating on the committee that are allowed to do so. A motion/Mr. Athanas, seconded/Mr. Nolan to move this item from discussion to decisions. Vote yes/Unanimous. A motion/Mr. Marzec, seconded/Mr. Ampagoomian to form an Adhoc Committee for Solar Energy with the following members: Janet Dolber – Planning Board, Denis Latour – Board of Assessors, Chris Thompson – Finance Committee, Melissa Walker – School Department (or a member of the School Committee) and James Marzec – Board of Selectmen and two additional Members at Large. The committee will consist of 5 members and two additional members, not to exceed 7 members.

Selectman Nolan suggested keeping the number of members to 5 because he is worried about quorum issues, however, add the following language - the ability to expand the number of members to 7 if needed. Selectman Mazec stated that he would amend his motion: A motion/Mr. Marzec, seconded/Mr. Athanas to form an Adhoc Committee for Solar Energy as follows: Janet Dolber – Planning Board, Denis Latour – Board of Assessors, Chris Thompson – Finance Committee, Melissa Walker – School Department (or a member of the School Committee) and James Marzec – Board of Selectmen and the ability to add 2 additional members at a later date if needed. Vote yes/ Unanimous.

Selectmen's Concerns. **Selectman Ampagoomian** 1) Mentioned that Elizabeth Gauthier passed away recently and sends his condolences to her son, Edgar. Ms. Gauthier was 110 and was one of the oldest individuals who resided in Northbridge. 2) Solar Power at the Northbridge Landfill Site – asked what Northbridge Redevelopment Corp. is doing about their 30-year maintenance agreement on this property. This company told the Town they would cut the grass and test the wells but have not honored their maintenance agreement. Discussion: It was noted that at their February 13, 2012 meeting, the Board originally voted 3-2 to support Article 6 but since then the Board has learned that the Planning Board held a hearing and voted to support Article 6. That being said, a motion/Mr. Nolan, seconded/Mr. Ampagoomian to reconsider the Board's vote on Article 6. Vote yes/Messrs. Nolan, Ampagoomian, and Melia. ARTICLE 7: To see if the Town will vote to change the zoning district designation of a 1.035 acre parcel of land located at the intersection of Main and Water Streets in the Village of Whitinsville shown on a plan recorded in Worcester District Registry of Deeds, Plan Book 571, as Plan 109, from Residential Five (R-5) to Industrial One (I-1); or take any other action related thereto. Discussion: It was noted that at their February 13, 2012 meeting, the Board originally voted 3-2 to take no position on Article 7 but since then the Board has learned that the Planning Board held a hearing and voted to support Article 7. Discussion: It was noted that at their February 13, 2012 meeting, the Board originally voted 3-2 to take no position on Article 8 but since then the Board has learned that the Planning Board held a hearing and voted not to recommend [pass over] Article 8. That being said, a motion/Mr. Nolan, seconded/Mr. Ampagoomian to pass over Article 8. Vote yes/Messrs. Ampagoomian, Nolan, and Melia.

Town Manager Kozak informed the Board that there could be a possible amendment to Article 2 and the Deputy Moderator is aware of same. The amendment would entail deleting the last two sentences of the article, which is the portion that the Finance Committee had issues with.

There being no further business before the Board, a motion/Mr. Ampagoomian, seconded/Mr. Nolan, to adjourn the Selectmen's Meeting at the conclusion of the Special Town Meeting this evening. Vote yes/Unanimous.

February 27, 2012**

A meeting of the Board of Selectmen was called to order by Chairman Melia at 7:00 PM, Northbridge Town Hall, 7 Main Street, Whitinsville, MA. **Present:** Messrs. Marzec, Nolan, Athanas and Ampagoomian. **Also Present:** Theodore D. Kozak, Town Manager.

The Pledge of Allegiance was recited by those present.

Approval of Minutes. February 21, 2012 [Special Town Meeting] –A motion/Mr. Ampagoomian, seconded/Mr. Nolan to approve the February 21, 2012 Special Town Meeting minutes as presented with the readings omitted. Vote yes/Messrs. Ampagoomian, Nolan and Melia. Abstain/Messrs. Marzec and Athanas.

Public Hearing. None.

Appointments/By the Town Manager. 1) Town Clerk's Office: Linda Zywiec, Office Clerk. Town Manager Kozak stated that two long-time employees recently retired from the town; one in the Town Clerk's Office and one in the Assessor's Office. He mentioned that each Department received many applications and after reviewing and interviewing several individuals, they each found a candidate to replace their current vacancy. Doreen Cedrone, Town Clerk, mentioned that she received over 90 applications and resumes for this position and wanted to personally thank everyone who applied for coming forward to offer their services to the Town. She then stated that Mrs. Zywiec had a lot of the qualifications that she was looking for and felt that Linda would be the best fit for the position. Mrs. Zywiec thanked the Town Clerk for giving her the opportunity to work at Town Hall and said she is looking forward to her new position as office clerk. Chairman Melia welcomed Mrs. Zywiec and wished her well in her new position. A motion/Mr. Marzec, seconded/Mr. Ampagoomian to affirm the appointment of Linda Zywiec as Office Clerk for the Town Clerk's Office. Vote yes/Unanimous.

2) Assessor's Office: Rita Wallen, Clerk. Robert Fitzgerald, Principal Assessor, also noted that he received as many applicants for his position as Mrs. Cedrone. Mr. Fitzgerald mentioned that he chose Mrs. Wallen for the position because of her extensive background as a real estate appraiser and her familiarity of the Town. Mrs. Wallen thanked Mr. Fitzgerald for giving her the opportunity to serve the Town of Northbridge and is looking forward to working in the Assessor's Office. Selectman Athanas asked that since Mrs. Wallen is a Realtor in Town, should she fill out a conflict of interest form with the Town Clerk's Office and Town Manager Kozak replied that as long as Mrs. Wallen isn't soliciting real estate business at Town Hall she doesn't need to fill out a conflict of interest form. Chairman Melia welcomed Mrs. Wallen and wished her well. A motion/Mr. Ampagoomian, seconded/Mr. Marzec to affirm the appointment of Rita Wallen as Clerk for the Assessor's Office. Vote yes/Unanimous.

Citizens' Comments/Input. Sal D'Amato advised that his appearance before the Board this evening was to discuss the misperception of his support for the Lasell Field project. He stated that Mr. Burke invited him to attend the Friends of Lasell Field Organization meeting on February 19, 2012 to discuss the Lasell Field Turf Project. That being said, Mr. D'Amato decided at the last minute that it would be in the best interest of the town for him to decline the invite to the meeting and asked that his committee members follow his lead. Mr. D'Amato later heard that at the Friends of Lasell Meeting someone mentioned that he was in favor of supporting the turf project. Mr. D'Amato would like for everyone to know that he and the members of the Finance Committee all have to remain objective on all capital projects in Town. He stated that just because he has a conversation with a person regarding their project, it doesn't mean his committee will support it. He also said that he had a conversation with Mr. Brian Burke regarding the turf project and explained to him the process that Mr. Burke would need to follow. He noted that an article would have to be placed on the warrant for Town Meeting and suggested that Mr. Burke come

before the Finance Committee to make a presentation and his Board would then take the project under advisement. Mr. D'Amato also suggested that Mr. Burke's committee attend a Board of Selectmen's meeting to discuss the Lasell Field project. Lastly, Mr. D'Amato reiterated that the Finance Committee reviews all capital projects before making their recommendation to the Board of Selectmen and Town Meeting. **Jill Redding, Northbridge Teacher's Association**, asked if she could discuss her concerns with the adoption of the new health insurance process now and Chairman Melia replied no, but when the topic comes up under decisions he will ask for citizen's comments and input.

Luxury Food, Inc. d/b/a Divine Thai Restaurant: Application for Common Victualler's License.

Present: Achara Weydt, Owner/Manager. Ms. Weydt mentioned that she is the owner of Divine Thai Restaurant and has lived in town for seven years. She stated that she was the former owner of a Thai Restaurant in Milford, MA and while working there she found out that a lot of her customers were from the Northbridge, Uxbridge, and Sutton areas. Ms. Weydt mentioned that the restaurant will be located at 123 Church Street—former site of the Windsor Restaurant, now closed. Selectman Athanas asked if she applied for a liquor license and she stated that her attorney is working on the application now and plans to submit one to the Town Manager's Office soon. Selectman Ampagoomian asked Ms. Weydt what her hours of operation would be and Ms. Weydt replied Monday through Thursday - 11:30 AM – 9:00 PM, Friday and Saturday - 11:30 AM – 10:00 PM. A motion/Mr. Nolan, seconded/Mr. Athanas to approve Luxury Food, Inc. d/b/a Divine Thai Restaurant's application for a Common Victualler's License. Vote yes/ Unanimous.

Adoption of New Health Insurance Process. Present: Attorney Brian Maser, Kopelman & Paige and Kenneth Lombardi, EBS Foran-Healthcare Consultant. Chairman Melia recused himself from the Board because he is a retiree and receives health insurance benefits from the Town. Vice Chairman Nolan took over as Chairman for this portion of the meeting. Town Manager Kozak mentioned that the legislature has adopted new legislation this year concerning a new process for negotiating health insurance changes. This legislation would also allow communities to join the Group Insurance Commission, which is the state's plan. Mr. Kozak said there are about 92 communities going through this process. He further explained that there are specific steps to be followed before the town can move forward. Town Manager Kozak then asked Attorney Brian Maser to provide an overview of what the law is for changing health insurance plans, what it means, and the process that needs to be followed. Attorney Brian Maser explained that in July of 2011, the Governor signed into law, General Laws, Chapter 32B, Sections 21, 22, & 23, which provides municipalities with a new tool to make changes to their health plan designs. He then mentioned that the town sent notices to the individual union presidents and retirees' representative to inform them of the town's intent to vote and adopt Sections 21, 22 & 23, in order to make changes to the health plan. Attorney Maser asked that the town make copies [to be placed in tonight's meeting minutes] of all the return receipts showing evidence that all individual union presidents and the retirees' representative received the letter prior to tonight's meeting. Attorney Maser advised the Board that if they vote to adopt Sections 21, 22, & 23, it would allow the Town Manager to start the process. He also mentioned that if the Board adopts the process a notice would need to be sent to the Insurance Advisory Commission [IAC] stating such adoption and then several things would need to take place: 1) meetings need to be scheduled to discuss the adoption of the statute by the Board, 2) handouts will be provided to the IAC with respect to the existing plan, 3) what the town's proposal would be with respect to the plan going forward, 4) a proposal for mitigation and the increased cost to the membership, etc. Attorney Maser then explained that after 10 days, the unions need to designate a representative to be on the Public Employee Committee [PEC]. He stated that the PEC and the Town would then commence negotiations to make changes to the plan and then there is a 30-day negotiating period during which the Town and the PEC need to reach an agreement. He also mentioned that most cities and towns have adopted the process and have all come to some type of an agreement. Attorney Maser noted that if the Town and PEC don't reach an agreement, then a review panel would go over the material/proposal and determine whether it meets the requirements/regulations. Selectman Ampagoomian asked if the union

representatives have contacted Town Manager Kozak since the letters were sent out notifying them of the health insurance changes. Town Manager Kozak replied no and then explained that the letters were just sent on February 21, 2012. Vice Chairman Nolan asked **Jill Redding, Northbridge Teachers' Association**, if she would like to come forward to discuss her questions and concerns. Ms. Redding mentioned that because the letters were sent out during school vacation week she was unable to speak with her Board to formulate their questions for tonight's meeting. Ms. Redding asked if Section 19 is an option and Town Manager Kozak stated not at this time. Ms. Redding asked if the Board of Selectmen needed to vote tonight or can the Union Presidents meet at some point in the near future to come up with their concerns and questions to discuss at a later date. Town Manager Kozak advised that he would like to move forward on this matter tonight. Selectman Ampagoomian stated that a vote taken tonight will only allow them to start the process. Town Manager Kozak said that at this point in time, he is only looking at changes and not to join the GIC program. **David Holmes, 935 Hill Street, Representative of the Firefighter's Association and Member of the Insurance Advisory Committee**, just wanted to mention that employees want to be part of the solution rather than the problem. A motion/Mr. Athanas, seconded/Mr. Ampagoomian to engage in the process to change health insurance benefits by adopting M.G.L. c. 32B, Sections 21-23. Vote yes/ Messrs. Ampagoomian, Athanas, Marzec and Nolan. Abstain/Mr. Melia.

Chairman Melia resumed his position on the Board.

Special Town Meeting Costs. Town Manager Kozak noted that Mr. Michael Yag, President & CEO of Access TCA, Inc. has graciously offered to help pay the cost of the Special Town Meeting. A motion/Mr. Ampagoomian, seconded/Mr. Nolan to accept the monetary gift in the amount of \$4,497.42 towards the Special Town Meeting costs. Vote yes/Unanimous.

Lasell Field Turf Project/Present: Brian Burke, 33 Keryn Court, Whitinsville, mentioned that he represents the Friends of Lasell Field organization and that his group has been trying to secure private funding for the turf project for over two years now, but to no avail. He pointed out that Northbridge is known for its championship football teams over the years, all of them nurtured on Lasell Field. He mentioned that the grass can no longer stand the wear and tear and the result is a field that is very slippery, unsafe, and unattractive. Mr. Burke stated that while the town is fortunate to have such high participation in athletics, heavy use of Lasell Field takes an annual toll that causes the natural grass playing surface to become worn, hardened, and muddy. Such conditions are unsafe for competitors, harmful to the field, and increases the cost to maintain the field. He noted that the town currently pays \$20,000 per year to maintain Lasell Field, which would decrease to \$5,000 with artificial turf. The life expectancy of artificial turf is between eight and fifteen years and only the top layer would need replacement at that time. The Friends of Lasell Field are suggesting funding through either a capital or debt exclusion. Mr. Burke stated that the expenditure would be balanced due to the early payoff of the High School project debt, which will be reducing the tax rate. Selectman Nolan said there are savings, but a lot of groups want to spend that money. He also stated that he is concerned that voters will be asked for so much that they'll reject everything. Selectman Athanas said he'd be hard pressed to support public funding of artificial turf and then stressed that the Selectmen need to prioritize what needs to be done in this town. Chairman Melia stated that he supports the project because it comes down to pride and this town lacks that in a lot of areas. Selectman Ampagoomian asked what has the Town done in 20 years. He then mentioned that town officials have been talking about a fire station for the past 14 years and nothing has happened. Chairman Melia said the reason we're in the position we're in, is because we've done nothing. He said he hopes the Selectmen will allow the voters in town to at least have a chance to vote on it and if it fails, it fails. Selectman Ampagoomian mentioned that since Lasell Field is under the jurisdiction of the School Department, then the Selectmen and the School Committee should jointly sponsor the article. The Lasell Field Committee is asking the Selectmen to sponsor a \$900,000 warrant article for the May 1, 2012 Spring Annual Town Meeting for installation of an artificial turf surface at

Lasell Field. Chairman Melia stated that the Lasell Field Turf discussion will be placed on the next Board of Selectmen's agenda scheduled for March 12, 2012.

Northbridge Memorial Town Hall: Building Conditions Assessment & Window Survey/Update – McGinley Kalsow & Associates, Inc. (Consultant). Mr. Wendall Kalsow, President, and Mark Almeda, Project Architect. Mr. Almeda provided a presentation to the Board of Selectmen showing a \$1 million cost summary and said they discovered that the retaining walls to the rear of Town Hall do not belong to the town, which reduces the cost by about 25 percent. The assessment, paid for with a matching \$15,000.00 grant from the Massachusetts Historical Commission, was a three-part process – the exterior, the windows and bid ready documents for the recommended work. The Northbridge Town Hall was built between 1872 and 1876 on land donated by the Whitin family and is listed on the National Register of Historic Places. Mr. Kalsow mentioned that the windows, despite their 130 years, are in good shape. A cost of \$305,000 is estimated for reglazing, replacing missing and broken glass, replacing outside caulking, repairing damaged and rotting wood around the windows, replacing or repairing broken window hardware, priming and painting. He broke the costs into four categories: high priority safety concerns, high priority general repairs, medium priority and low priority. Chairman Melia said he was particularly concerned with the safety issues highlighted in the study. He asked the Town Manager to put the issues on the board's next agenda, perhaps using some of the Town's Stabilization Fund to cover the cost. Town Manager Kozak suggested the Board of Selectmen consider putting the project before the voters at the Spring Annual Town Meeting on May 1st as a priority. Selectman Marzec noted that regular maintenance would have to be scheduled once the work is done, instead of waiting for something to fall apart. Some of the high priority public safety issues include replacing two broken cast stone chimney capstones; replacing broken mortar on the southwest chimney; repair dislocated capstones at the southern retaining wall adjacent to the parking lot; replace steel and cast iron rails at top of western retaining wall adjacent to parking; and replace steel and cast iron rail at west egress walkway and stair. Mr. Kalsow mentioned the cost estimate is \$169,459, but could be less if it is confirmed the town does not own the retaining walls. Other costs are: high priority general repairs at \$563,950; medium priority items at \$284,719; and low priority items at \$26,757.

Town Charter/Review proposed changes and the process to adopt them/Present: Chris Thompson, Charter Review Committee. Mr. Thompson mentioned that after almost two years of working on the proposed changes to the Charter, he is now coming before the Board of Selectmen with the committee's recommendations. He stated that it's up to the Selectmen to take the final step and present the changes to the voters at the May 15, 2012 Annual Town Election. Mr. Thompson said the proposed changes were approved by voters at the Spring Annual Town Meeting last May but the vote must now be reaffirmed at the election. The most controversial change at the Town Meeting was a reduction of the School Committee from nine to five members, a change that voters did approve. Mr. Thompson said the ballot questions must be prepared for the election warrant, and in addition, a copy of the Charter highlighting the proposed changes must be put into booklet form and mailed to voters before the election. Mr. Thompson explained that the booklet gives folks the opportunity to see the changes made. Selectman Marzec and Chairman Melia represented the Board of Selectmen on the Charter Review Committee and noted that the Charter was supposed to be reviewed 10 years ago and it never was so it was a long process. Mr. Thompson said it was a collaborative effort. Other Charter Review Committee members are Barbara Gaudette, Walter Drew, Shelley Buma, James Barron, Susan Brouwer, and Michael McGrath.

Building, Planning and Construction Committee [DPW Facility Update]/Present: James Shuris, DPW Director and Thomas Pilibosian, Chairman of the Building, Planning and Construction Committee. Mr. Pilibosian provided an update regarding the proposed DPW Facility and explained that HKT Architects has been very busy since they were awarded the contract to conduct a feasibility study. He mentioned they conducted a space assessment needs study for each of the functions in the Highway Department. HKT Architects also provided the Building, Planning and Construction Committee [BPCC]

with six different design configurations. It was also pointed out that these designs are not site specific and would work anywhere be it Fletcher Street, Providence Road, etc. Mr. Pilibosian informed the Board that the BPCC has narrowed it down to two designs: one being their preferred design (Option 4A) and the second being a good alternative (Option 1A). That being said, he mentioned that the BPCC voted to have HKT Architects move forward with Option 4A as the preferred design. Mr. Pilibosian provided the Board with a copy of the designs for their review and stated that he is hoping to get a cost by April. He also stated that after his committee receives the cost from HKT Architects, the BPCC would like HKT Architects to provide a presentation to the Finance Committee and Board of Selectmen. Chairman Melia asked if his committee would be ready to move forward for the Spring Annual Town Meeting and Mr. Pilibosian replied no. Selectman Marzec said he needed more time to review the designs and if possible will ask questions at a later date. Selectman Marzec asked if copies could be made for each Selectmen and Mr. Pilibosian followed up by stating that Mr. Shuris is looking to have Option 4A and Option 1A copied and placed on the town's website. Chairman Melia asked Mr. Pilibosian to schedule a date in April for his committee to come before the Board of Selectmen.

Selectmen's Concerns. **Selectman Athanas/**Announced that the Blackstone Valley Expo is being held this Saturday, March 3, 2012 @ the Northbridge High School. **Selectman Nolan 1)** Asked about the status of Remote Participation and Town Manager Kozak replied that the Board voted at their last meeting. Citizens' Comments/Input. Representative George N. Peterson, Jr. provided the Board of Selectmen with a copy of the estimated cherry sheets [FY13] based on the Governor's budget. He stated the biggest increase was in Chapter 70, which is estimated to be over a million dollar increase. He pointed out that the unrestricted general aid, government aid, the lottery additional assistance combined line item is the same as last year and there will be a one-time payment sometime in October but these monies are not shown in that line item. Representative Peterson mentioned that he spoke to the Central Mass. Regional Planning Commission today and stated that the Sutton Street project is still scheduled to move ahead in 2013. He also mentioned that there will be an additional two hundred million in Chapter 90 funds that will be coming back to cities and towns and noted that this is the second highest time they've ever sent this kind of money back to cities and towns. Representative Peterson announced that Quinnsigamond Community College is still continuing to work with the Blackstone Valley Chamber of Commerce to set up a college facility within the Blackstone Valley. Selectman Ampagoomian asked how Massachusetts is doing with their unemployment rate and Representative Peterson stated lower than the national average. Selectman Athanas asked if Representative Peterson knew the amount of unrestricted aid that Northbridge would receive and Town Manager Kozak replied around \$129,000. Selectman Marzec asked with the recent hike in gas and oil prices, what types of things are being done to help individuals out. Representative Peterson mentioned they are always looking at the regulatory structure to make people competitive. With the overall gas price, there isn't much they can do. He stated that the 22½ cent gas tax, of which 2½ cents goes into the underground storage tank fund for clean-up and the other 20 cents goes to the Highway fund to be used for road and bridge work. Chairman Melia asked if there are any state revenues or grants out there to help fund the repair/renovation of the Northbridge Town Hall. Mr. Peterson responded that last year the study of the Town Hall was funded by a grant and tonight he gave Mr. Kozak a copy of a letter of support to the Mass. Historical Commission seeking help with the next step of funding.

Town Manager Kozak requested that Item J -Capital Program for Roads & Sidewalks be taken out of order and discussed now.

Capital Program for Roads & Sidewalks/Present: James Shuris, DPW Director & Robert VanMeter, Highway Superintendent. Mr. Shuris provided a five-year, \$2.8 million pavement maintenance and preservation plan to the Board of Selectmen. He said every year the Town of Northbridge receives around \$479,000 in Chapter 90 money, which in the past has been used for designs such as Sutton Street and other miscellaneous work, such as crack sealing and road maintenance. He stated that this program for roads and sidewalks will be used for building, maintaining and preserving town roads. He mentioned that the plan would combine state aid earmarked specifically for road repairs with \$125,000 of town money for each of the next five fiscal years. For that reason, voters at the May 1st Town Meeting will be asked to approve spending \$625,000 to cover the town's share of the work for the next five years. If the article is approved, voters would then be asked to approve the same spending on a ballot question at the Annual Town Election on May 15th. Mr. Van Meter mentioned if voters approve the proposal, a total of \$498,620 would be spent in fiscal 2013, with \$461,120 dedicated for repairs to Quaker Street [from Church Street to the Upton line] and on Mendon Road [from Quaker Street to the Mendon town line]. Mr. VanMeter said the work could start in June or July. Mr. Shuris' capital program for roads and sidewalks also showed which roads would be fixed in the following four fiscal years and stated that money would also be set aside to fix sidewalks. Details of the DPW Director's road maintenance program can be found in the documentation attached to these minutes. Selectman Ampagoomian mentioned that the Town of Northbridge is being looked at by the Blackstone Valley National Heritage Corridor as a tourism center. One of the areas they are looking at is scenic Quaker Street and noted that this road is one of the most deplorable roads he has ever seen. He asked Mr. Shuris if he could contact folks at Mass. Highway or the Department of Tourism to see if there are any dollars available to help the Town of Northbridge fund the road repairs for Quaker Street.

Mr. Pilibosian provided an update on the proposed DPW facility project. He reminded the Board that the BPCC originally picked design proposal 4A to move forward with but has since decided to go with design proposal 4B. Chairman Melia announced that Item G, Northbridge Memorial Town Hall: Building Conditions Assessment & Window Survey, has to be discussed before the Board of Selectmen can vote to support the Mass. Historic Commission grant application. **Northbridge Memorial Town Hall: Building Conditions Assessment & Window Survey/Update – Present: R. Gary Bechtholdt II, Town Planner & McGinley Kalsow & Associates, Inc. (Consultant). Wendall Kalsow, President.** Mr. Bechtholdt advised the Board of Selectmen that Mr. Kalsow is here before them this evening to provide an update on the window survey done at Town Hall. Mr. Kalsow provided a powerpoint presentation on the condition of all Town Hall windows, exterior doorways and the plans to restore them. He mentioned that the majority of the Town Hall's 1876 historic windows are still and remain in repairable condition. Mr. Kalsow stated that the window repair work needs to be completed as the highest priority to prevent further damage to the interior and consequently escalating repair costs and loss of historic fabric. Mr. Kalsow informed the Board the cost estimate for the window restoration/weatherization and repair project is approximately \$635,000 including indirect construction costs and architectural services. He mentioned that they have looked at each window and have identified the different elements of each window. Lastly, Mr. Kalsow provided a prioritized list of exterior restoration and repair items for the Board to review. Selectman Ampagoomian asked Mr. Kalsow if he priced having the windows fixed onsite by a contractor versus removing them and having them fixed elsewhere. Mr. Kalsow said that most projects take place

offsite [at their shop] for various reasons: lead paint issues, prevailing wages and because most contractors have all the tools at their disposal. Selectman Nolan asked if the original hardware will be reused and restored. Mr. Kalsow replied they will be reused depending on their condition. Mr. Bechtholdt mentioned that because there is a preservation restriction on the entire Town Hall building all requirements must be satisfied with the Mass. Historical Commission. Mr. Kalsow advised that restoring the original windows will have a longer service life than the replacement aluminum insulated glass windows. Selectman Athanas asked what the cost would be to install storm windows and Mr. Kalsow stated it would be around \$170,000.00. **Mass. Historic Commission Grant Application/Vote to submit.** A motion/Mr. Marzec, seconded/Mr. Ampagoomian to submit a Mass. Rockdale Village Foundation/Oliver Ashton Post #343 Lease Agreements. Present: Harry Berkowitz and Andy Williamson, Members of the Oliver Ashton Post [American Legion] and Louis Bernard, Chairman of the Playground & Recreation Commission. Town Manager Kozak explained that way back in the 1990’s, a lease agreement was made between the Town and the Rockdale Village Foundation for the use of the Legion Ball Grounds. In the lease agreement, it stated the Town would maintain the fields in exchange for the use of the fields, however, the lease was in place for one year and never renewed. Town Manager Kozak mentioned that he had spoken to someone on the Playground & Recreation Commission regarding the lease agreement and discussed whether or not they should be looking at reinstating the lease. He also stated that he spoke to Town Counsel to have them review the lease agreement. He further noted that after speaking with the Playground and Recreation Commission he found out that the parking lot is under the jurisdiction of the American Legion and not the Rockdale Foundation. Mr. Kozak stated that it would make sense to have a similar type of lease agreement with the American Legion for use of their parking lot. As a result, Town Counsel prepared two proposed leases: 1) Rockdale Village Foundation for use of the fields; and 2) American Legion – for use of the parking lot. Mr. Berkowitz stated that the lease agreement with the American Legion will only be for one year because he is unsure of the American Legion’s status going forward. He then mentioned that the lease for the Rockdale Foundation can be given a longer term because they’ve been around since 1954 and they’ll probably be around longer. Mr. Berkowitz stated for the record that the address for the Rockdale

Foundation is the same as the American Legion (198 Church Ave.). Chairman Melia announced that his Board will place this item on a future agenda for a vote.

Town Manager's Report. 1) Bridge Updates: Douglas Road Bridge & Ross Rajotte Bridge: 1)

Douglas Road Bridge – The state has received bids and the work will commence in approximately three months. 2) Ross Rajotte Bridge – Mr. Kozak mentioned that the work appears to be progressing slowly.

The DPW Director would like Town Manager Kozak to contact state representatives for a meeting with Mass Highway. Town Manager Kozak mentioned that there were some issues between the contractor and State and this is why the work slowed down. Town Manager Kozak also mentioned that he will be attending a meeting in Worcester to find out more answers as to why the Bridge progress has slowed down and will keep the Board apprised of his findings. 2) **Chamber of Commerce: 4-Town Planning Meeting:**

He mentioned that he attended a 4-Town Group meeting to discuss economic development between the communities. The next step is to try to expand the gas line down Main Street (past Walmart) into Sutton. 3) **Department of Revenue: Ruling on School Building Payment:**

The Department of Revenue has determined that the excess payment of funds for the High School project must be reduced on the following year's tax levy limit. This amount will be approximately \$1.35 million dollars. 4) **DPW Spring Clean-Up:**

Due to the nice weather, the Department of Public Works has begun street sweeping and the painting of cross walks. They have also begun preparation of bid documents for the proposed road maintenance program. 5) **Riverdale Water Company Update:**

The DPW Director has met with Jim Knott, owner of Riverdale Water Company, to discuss the hydraulics study prior to further discussion of the Town purchasing water from them. Mr. Shuris will update us as progress continues. 6) He

mentioned that the Fire Chief asked to remind the public of an Emergency Management Open House on Thursday, March 29, 2012, at the front part of the Police Department building and will be open from 3:00 PM to 8:00 PM. All are welcomed to attend and to meet the Emergency Management team. Chairman Melia asked if there was any information on the library roof project. Town Manager Kozak informed him that the bids are going out within the next 2 to 3 weeks.

Selectmen's Concerns. Selectman Athanas 1) Mentioned that the initial sale of the Oakhurst property has fallen through and stated that in the future it would probably be in the best interest of the Town to bring in the property owner before rezoning. **2)** Asked if there were any savings to the Town on "sanding and plowing" and if the money could be used to purchase vehicles. Town Manager Kozak mentioned yes and that this is what they are planning to do. **3)** Announced that Jen Wolfe, a resident in Town, will be opening a new business at 110 Church Street, called Petals Fine Floral and Gifts and there will be an Open House on Saturday, March 31, 2012, 9:00 AM to 4:00 PM. **Selectman Ampagoomian 1)** Asked about the status of a sign on RT 146 for Walmart. Town Manager Kozak advised that the State won't put a sign up because they don't advertise for businesses. **2)** Asked Town Manager Kozak to tell the Highway Department not to neglect Rockdale when they start painting crosswalks in Town. **Chairman Melia 1)** Asked if they would be voting their positions on capital projects at the next meeting of April 9th and Town Manager Kozak replied yes. **2)** Asked if the Highway Department would be painting the fences and cleaning them up during the spring clean-up. DPW Road Program Presentation. Present: James Shuris, DPW Director, and Rob Van Meter, Highway Superintendent. Mr. Shuris and Mr. Van Meter provided the Board with a DPW Road Program presentation. Mr. Shuris explained that instead of spending \$5 to \$6 million on a roads project he suggested using small chunks of money for the next 5 years. He and Mr. Van Meter have put together a 5-year plan, which will require consistent funding using town funds and Chapter 90 funds. The program is based on the preservation vs. reconstruction, following methodologies: a mix of new and old technologies, find it and fix it, best fit program, and no lost roads. Mr. Van Meter explained that pavement preservation is not reconstruction; it is a program employing a network level, long-term strategy that enhances pavement performance by using an integrated, cost-effective set of practices that extend pavement life, improve safety and meets motorists expectations. He then stated that the Town will strive to evaluate each road and choose the “best fit” maintenance system that addresses each of the following: safety, pavement condition, planned future growth, budgetary issues, and common sense planning. Mr. Shuris stated that they are looking to spend around \$2.8 million dollars over the next 5 years on the roads plan. Mr. Van Meter mentioned that year 1 will consist of taking care of Quaker Street and Mendon Road because they have received the most complaints than any other road in town. He then mentioned that years 2 through 5 will see a variety of “project specific” and “best fit” preservation and maintenance activities throughout Northbridge. Mr. Shuris concluded by saying that there will be no roads left behind. Selectman Marzec thanked both Mr. Shuris and Mr. Van Meter for a great presentation and then suggested that Sprague Street be placed on their priority list because of the drainage issues. Mr. Van Meter responded by saying that it will be taken care of eventually because it is a road that is in deplorable condition.

The town will receive \$478,990. **2) Mass Highway/Ross Rajotte Bridge Meeting:** The DPW Director and Town Manager met with Mass. Town Election Ballot Questions/Overview. Chairman Melia announced that he and Town Manager Kozak thought it would be best to bring the articles forward one last time, before the election on May 15, 2012. He mentioned there will be six questions on the ballot; three of which refer to the Town Charter; and the other three, which are capital exclusions: 1) Town Hall renovations; 2) 5-Year Road Maintenance Program; and 3) Lasell Field Turf Project. Chairman Melia asked Chris Thompson, Finance Committee Member, to provide a brief description of the three questions. He mentioned that per procedure and Mass. General Law, three Charter questions will be placed on the town election ballot for approval. Mr. Thompson provided a brief description of the proposed ballot questions by stating that Question #1 – some changes and re-wording in the Town Charter (full summary can be found in documentation). Question #2 – the reduction in membership of the School Committee from nine members to five members; and lastly, Question #3 – Charter Amendment - move the text of section 7-2 to section 8-2 and add a provision that the final step in the process of replacement, revision or amendment of the Charter shall be a ballot vote at a Town Election. All changes are outlined in the Finance Committee booklets that were mailed to all residents. **Town Hall Building Conditions Assessment & Window Survey Project/Present: R. Gary Bechtholdt, Town Planner and Wendall Kalsow, President at McGinley Kalsow & Associates, Inc.** Mr. Bechtholdt mentioned that a brief presentation will be given on the Town Hall Assessment & Window Survey by Mr. Kalsow and then stated that the town is looking to secure funding for the Town Hall restoration project. Chairman Melia asked Mr. Bechtholdt if the grant application was submitted and Mr. Bechtholdt replied that the Planning Office has submitted the grant application to the Mass. Historic Commission and will be eligible under the Mass. Preservation Project Fund, Round 18, eligible for up to \$100,000.00 for reimbursement and should hear something on the grant by July/August. **Road Maintenance Program/Present: James Shuris, DPW Director.** Mr. Shuris noted that roads are like buildings, they need maintenance. He stated that Northbridge has over 80 miles of roads in Town and the five-year road plan that he put together requires maintenance and preservation. He also pointed out that all roads in town will be looked at and evaluated based on their condition. Mr. Shuris provided a brief presentation (which was also presented at Town Meeting) showing residents that no roads will be left behind, a 5-year plan & commitment, and a preservation and maintenance plan. Selectman Athanas asked Mr. Shuris how he plans to address the roads that have already failed. Mr. Shuris stated that he plans to do it the right way. He mentioned that they already know which roads have major issues and stated that if they pick a target area like they did with Sutton Street, the town will pay the engineering money using Chapter 90 and Town funds and then wait and have the State [Mass DOT] help us out. Selectman Marzec applauded Mr. Shuris with his can do attitude and said this town needed someone like him. **Lasell Field Artificial Turf Project/Present: Brian Burke.** Mr. Burke mentioned that after providing several presentations the past few months, he and the Friends of Lasell Field group are still working hard to get the facts out to residents regarding the Artificial Turf Project. He then reiterated that his group had 5 turf companies come in so they could learn more about the process and what the cost would be to install artificial turf. He also stated that his group never had any intentions of coming before the Board of Selectmen, but after trying to privately raise funds by holding wine tastings, golf tournaments and bake sales his group decided to take a different approach and bring it to a higher level. That being said, the Friends of Lasell Field brought their proposal to the

Board of Selectmen and Finance Committee for their support. Chairman Melia commended Mr. Burke and the Friends of Lasell Field for doing a great job and stated that we'll see how the residents vote on Tuesday night. Town Manager Kozak reminded everyone that this year the town is in a unique situation because of the state making a balloon payment on the debt service for the school. That being said, he mentioned the real estate taxes would go down and then stated if all three articles pass there would still be a reduction in household taxes.

Comprehensive Wastewater Management Plan [CWMP]/Update – Present: James Shuris, DPW Director. Mr. Shuris mentioned that an RFP is being prepared for a Comprehensive Wastewater Management Plan (CWMP). The scope of services will include a sewer system evaluation report; a hydraulic model of the Town's sewer system to identify deficiencies in the current system; a sewer capacity analysis of the current system; sewer mapping of the collection system; an assessment of the condition of existing sewer facilities; and recommendations to update the current Infiltration & Inflow (I&I) Plan. The proposed dates for the summer schedule are Monday, July 16th and Monday, August 13th. Chief Warchol believes the dangerous dog is a public safety risk and most likely will be euthanized. FY'11 Audit/Present: Auditor Tim Harrison, Borgatti Harrison & Co. and Neil Vaidya, Town Accountant. Mr. Harrison provided the Board of Selectmen with an overview of the results of the FY'11 audit and prior year recommendations. He began the presentation by speaking about the Circular A-133 Report, which deals with Compliance with Laws and Regulations, Review of Internal Controls and Compliance as they relate to Federal expenditures. He announced that there were no findings and that during FY 2011, the Town spent a little over \$3.3 million dollars in federal money. Mr. Harrison mentioned that there was only one finding in 2010 and this has been resolved. That being said, Mr. Harrison went on to the Basic Financial Statements and mentioned there were no findings. He then turned to the Management letter where he touched on the following items: 1) Tailings (uncashed checks). Mr. Harrison recommended the Treasurer and Town Accountant fully reconcile the tailings account and then develop procedures to ensure that this account remains reconciled. He also recommended the Treasurer implement procedures to follow the Mass. Abandoned Property Laws and Holder Reporting requirements and take action to bring these tailings back into the Town's fund balance. 2) Improve In-House Capital Asset Program - Mr. Harrison recommended that the Town Accountant attempt to reconcile the general ledger capital asset amounts to prior year audited amounts and make the necessary corrections or the Town contract out this service so that the Town can accurately report and maintain the Town's capital assets. Current Year Recommendations – Improve Controls over Treasurers' Cash – Mr. Harrison recommends the Town Treasurer begin preparing monthly bank reconciliations for the payroll and vendor checking accounts and, if need be, obtain training on how to perform this important treasury function. He also recommended that the Treasurer contact Unibank for Savings regarding the Class of 1991 bank account and either have the Town's tax identification number removed from the account or the account be closed. Selectman Melia asked what improvements have been made over the past year in the financial departments. Mr. Harrison stated that the flow of information has improved and the audit seems to be moving quicker. He mentioned that because there weren't many negatives in the management letter, this didn't leave a lot of room for significant improvement. Mr. Vaidya mentioned that things are running smoothly, however, there are still some processes that can be

improved upon going forward. The complete Management Letter can be found on file in the Town Manager's Office.

Union Street Brook/Present: Robert A. Parker, Jr., 20 Nolet Street, Linwood, Lisa Violette, 114

Union Street and her friend, Cameron Irvin. Mr. Parker mentioned that with the recent rain in the Valley, he and other residents have been affected again by the overflowing Union Street brook. That being said, Mr. Parker stated the last meeting held on the Union Street brook was in April 2009, with Town Manager Kozak, former DPW Director Richard Sasseville and Union Street residents: Bob Parker, Joe Baltramaitis and Richard Brooks. Mr. Parker stated that no action has been taken by the Town of Northbridge to remedy the problem and/or relieve the aggrieved parties. He mentioned that all of the parties concerned continue to have their properties flooded whenever there are heavy rains and thunderstorms. He read aloud articles and letters that date back to 1987, concerning the Union Street brook. Mr. Parker stated that their properties have continued to sustain increased amounts of flooding because of the development of Union Place, off Center Street. Mr. Parker then stated "enough is enough" and that he's been coming to these meetings for 14 years and nothing has been done. Selectman Marzec noted that surface runoffs are a big problem throughout the Commonwealth and he is frustrated as a Selectman that these problems are still occurring. He also stated that he is not convinced that previous decisions were made the way they should be now and if you look at all the developments in town with drainage and other issues, we can't let developers get away with things like this. If we give an inch, they'll take a mile. The consensus by the Board was to get a new set of eyes to look at the problem. Selectman Melia stated that he thought some improvements had been made based on meetings that took place a while ago and Mr. Parker mentioned that the Department of Public Works came onto his property and manually shoveled the brook to widen it out and then they came with a backhoe to clean out part of the brook. Selectman Melia asked Mr. Parker what recommendations he would have to fix this problem. Mr. Parker replied to install new pipes and catch basins throughout Center and Union Streets and to the railroad area. Selectman Melia asked for DPW Director Jim Shuris to investigate the situation and provide the Board of Selectmen with a report. He also stated that he didn't know if there is a long-term solution without spending thousands of dollars. Mr. Parker stated that he will provide copies of the paperwork to the Board as to what has been done in the past and Town Manager Kozak said he was uncertain if this material was still on file in the Town Hall.

Rockdale Village Foundation and Oliver Ashton Post #343/License Agreements. Present: Members of the Oliver Ashton Post #343 - Harry Berkowitz and Andy Williamson. Members of the Playground & Recreation Commission - Robert A. Parker, Jr. and Dave Scichilone.

Selectman Ampagoomian announced that he has filed a "conflict of interest" form with the Town Clerk's Office because he is a member of the Sons of the American Legion and will refrain from speaking and/or voting if the Board wishes him to do so. Town Manager Kozak mentioned that several years ago the Town of Northbridge had a lease agreement with the Rockdale Village Foundation to use the property/fields for recreational purposes. He noted that the lease has since expired and the Chairman of the Playground and Recreation is asking for the Town to establish a new lease agreement. Town Manager Kozak informed the Board that the parking lot is owned by the American Legion and not the Rockdale Village Foundation. That being said, Town Manager Kozak asked Town Counsel to put together two lease agreements; 1) between the Rockdale Village Foundation and the Town of Northbridge, and; 2) the Oliver Ashton Post #343 and Town of Northbridge. This will allow the Town to use the property/fields and parking lot area. Town Manager Kozak mentioned that a "draft copy" of the two lease agreements were given to the Selectmen for their review. He also stated by having the two leases, it will protect the Town of Northbridge as well as the American Legion and Rockdale Village Foundation. That said, if the Board agrees with the wording of the lease agreements they can vote at the next Selectmen's meeting [June 18, 2012]. Mr. Berkowitz stated that he hasn't seen the lease yet and doesn't know whether or not the legion will sign it. He mentioned that if the Legion fails to get a tenant in the building, they will need the assistance of the Town to help with the liability insurance (which is \$1800 a year) because they can't

afford it. Town Manager Kozak mentioned that as soon as he receives the lease agreements from Town Counsel he will send it to all parties involved for their review.

Fall Annual Town Meeting [October 23, 2012]/Set Closing Date for Warrant. Town Manager Kozak mentioned that the Charter requires seven weeks before Town Meeting to close the warrant for submission of articles. He suggested pushing back the date to nine weeks to give the Planning Board extra time to take any action they may need, such as, public hearings. Town Manager Kozak announced that he will place this item under decisions at their next meeting, June 18, 2012.

FY 2013 Town Manager's Goals and Objectives. Chairman Nolan read aloud the FY 2013 goals and objectives for the Town Manager as follows: 1) Develop a maintenance program for town buildings. 2) Assist the Building, Planning and Construction Committee with locating a new site for the Fire Station. 3) Assist the DPW Director with implementation of a road management program and the oversight of the Sutton Street project funding and look for new TIP projects. 4) Assist in the implementation of a new DPW facility.

Section 12 Liquor Licenses [Pouring Licenses]/TIPS Certification. Present: Walter Warchol, Chief of Police. Chief Warchol mentioned that the current policy states that each alcohol establishment has to have their manager TIPS certified and that the manager trains his/her employees. He is recommending that all employees serving alcohol should have formal alcohol intervention training, whether it is TIPS, or some other type of training be certified every three years, and that the establishments provide a list of their employees and their TIPS certification prior to receiving their liquor license each and every year. Selectman Melia agreed with Chief Warchol and supports his recommendations. Chief Warchol also stated that package stores should also be required to have employees TIPS certified. Selectman Athanas asked the Police Chief if the TIPS classes were offered frequently and Chief Warchol replied yes, and that the Police Station could hold them at their facility. The Selectmen all agreed with Chief Warchol's recommendations. Chairman Nolan mentioned that this item will be placed on their next agenda under decisions. Selectman Melia asked the Police Chief to amend the Town of Northbridge's Rules & Regulations Governing Alcohol Establishments section to include the new language and submit to the Selectmen before their next meeting.

At this time, Chairman Nolan informed the Board of Selectmen that he would like to proceed with agenda Item LL [Short Term Borrowing] if Board members are not opposed as this would allow the Notary

Public to leave after action is taken. There being no objection, a motion/Mr. Marzec, seconded/Mr. Athanas to proceed with agenda Item LL [Short Term Borrowing] at this time. Vote yes/Unanimous.

Short-Term Borrowing/Vote to sign temporary notes. Town Manager explained that the Treasurer's Office notified him that there is financing needed for some work to be done at the Wastewater Treatment Plant, which was approved at Town Meeting last year. The Town would like to do short-term borrowing in the amount of \$311,000, at a rate of .55% but would need the signature of the Board in order to do so. Vote yes/Unanimous.

Payment in Lieu of Taxes Agreement. Town Manager Kozak explained that the Payment in Lieu of Taxes Agreement [PILOT] solar project was approved at Town Meeting for the property that borders Grafton and the Town of Northbridge. He mentioned that the Town will receive a flat amount of money [\$39,224.00] over 20 years but in order to move forward it requires the Board of Selectmen's approval. A motion/Mr. Athanas, seconded/Mr. Melia to approve the Payment In Lieu of Taxes agreement as proposed and reviewed by Town Counsel. Vote yes/Unanimous.

Consulting Services/Vote to accept monetary gift. Town Manager Kozak told the Board of Selectmen to pass over this agenda item. He mentioned that a consultant that works for the PILOT Agreement Company [Con Edison] has agreed to pay for the services, of a consultant that the Town hired to review all the documentation and to make sure all the information that was provided to the Town was correct. No action is needed because the check will go straight from Con Edison to the consultant.

Memorandum of Agreement [Northbridge Teacher's Association]/Vote to accept. Town Manager Kozak mentioned that several months ago the Northbridge Teacher's Association won their case against the Town. The Teachers filed a complaint with the State's Division of Labor Relations in 2007 when the town changed the health care plan design. Town Manager Kozak mentioned that within the agreement there is a Health Reimbursement Account (HRA) that the Town set up for all its employees (non-union

and union) four years ago. He explained that he went to the teacher's union and asked if the teacher's union would agree to change their agreement to read the same as all the other employees in town. That said, the teacher's union agreed and Town Manager Kozak suggested the Board approve the memorandum of agreement for the Northbridge Teacher's Association. Selectman Melia explained that because his daughter is a teacher in town he will abstain from voting. Selectman Marzec pointed out a typo on Page 2, Section 1, Item #1 – last line (July 1, 212 to June 30, 2013), should read: (July 1, 2012 to June 30, 2013). Vote yes/Unanimous.

DPW Redevelopment Project/Present: Building, Planning & Construction Committee, Finance Committee, and Board of Selectmen. Tom Pilibosian, Chairman of the Building, Planning & Construction Committee, provided an overview of the Department of Public Works Redevelopment Project and explained that \$76,000.00 was approved at Town Meeting for a feasibility study. Representatives of HKT Architects Inc. and Jim Shuris, DPW Director, provided a presentation on a feasibility study that was done on the Department of Public Works located on Fletcher Street. Mr. Shuris mentioned that the total cost of building new facilities using pre-engineered and frame construction on the Fletcher Street site and that would replace buildings that have been there since 1941, is projected at \$8.156 million, according to the HKT study. If a 19,212 square-foot building was put on Providence Road [Wastewater Treatment Plant site] it would cost about \$500,000 more. Mr. Shuris also said it would cost about \$150,000 more a year to operate the DPW from Providence Road because Fletcher Street is much closer to the center of town. Mr. Shuris and HKT Architects both said the current buildings on Fletcher Street are in deplorable condition and that they don't meet building codes. The building of a new DPW headquarters has been contentious for the past several years and voters have defeated questions that sought \$2.1 million and \$2.5 million for new facilities during separate votes in recent years. Town Manager Kozak mentioned if the \$8.156 million proposal is paid through a 20-year Proposition 2 ½ debt exclusion, the average increase in the property tax over that time for a person owning a house assessed at \$265,000 would be \$99.44 per year. Selectman Athanas acknowledged the need for a new DPW facility but said he didn't think voters would support spending that much money. Selectman Melia concurred with Selectman Athanas and said while he liked many aspects of the study he didn't like the projected price tag. He urged the architects to "sharpen their pencils" and do what they could to lower the cost. HKT Principal William R. Hammer said alternatives could be written into the construction bids that could lower the cost but he also said he couldn't promise the price would go down very much. Finance Committee Chairman Salvatore D'Amato said the presentation was the first legitimate outline of information on a new DPW facility and now that we got all the facts, the question is what do we do with them.

FY '13 Pavement Management Program. Present: James Shuris, DPW Director and Rob Van Meter, Highway Superintendent. Mr. Van Meter mentioned that the DPW is moving forward with the roads program. The program consists of both preservation and re-construction methods. We will initiate the program with four (4) pavement preservation technologies: Hot-In-Place Asphalt Recycling; 10% Asphalt Rubber Chipseal; Crack Sealing; and Micro-Surfacing. During the first week of July, the Town of Northbridge DPW will be hiring Highway Rehabilitation of Brewster, NY to begin a two (2) step process to improve and preserve the wearing surface on Mendon Road and Quaker Street. The first step is called Hot-In-Place Asphalt Recycling, and involves the use of propane-fired heating units to heat the existing pavement, mill-off the top surface, recycle this material by mixing it with rejuvenating agents, place it back on the surface, and restoring the crown to the road, which will improve the rideability. The second step involves the placement of a 10% Asphalt Rubber Chipseal, which went completed, will seal the road, protect it from water intrusion, and provide a new wearing surface. This process involves the application of a liquid asphalt rubber applied at temperatures of approximately 375 degrees Fahrenheit followed by an application of heated and treated aggregates. During the upcoming construction season, we have contracted with Seal Coating Inc., from Hingham MA, to crackseal many of our subdivision roads. This process will prevent further water intrusion into the road base and prepare the road for an application of Micro-Surfacing. This operation is scheduled for late Spring 2013, and will provide a new uniform wearing surface, complete the sealing process, and protect our roads from further deterioration. Mr. Shuris explained that he would like to have neighborhood meetings before the work starts in case residents have questions and/or concerns.

Proposed Right-of-Way Road Opening Permit Policy. Present: James Shuris, DPW Director. Mr. Shuris provided the Board with a “draft” copy of the Town of Northbridge’s Public Right-of-Way Road Opening Permit Policy. He explained that the current policy allows anyone to cut into town roads for only \$50.00 and thus he is proposing a new policy. He mentioned that the new policy will be to have a flat rate to penetrate the road and then another rate for the age of the road and the condition of the road such that a newer road will cost you more dollars per square foot to cut into than an old road.

Town Manager’s Report. 1) Whitinsville Water Company Department of Public Utilities Hearing: The Town Manager mentioned that the Town received a notice from the Department of Public Utilities regarding a hearing to refinance the current Whitinsville Water Company’s Treatment Plant and proposed facility on Carr Street. He mentioned because the rates are favorable now this will allow the WWC to lower the cost of their bond by refinancing with a lower rate. **2) Update on Fire Department-Pumper Truck:** The pumper truck has been delivered to the Hopkinton dealership for final preparation and will be delivered in about two weeks. **3) Update on Sutton Street:** Mentioned that he and the DPW Director attended a meeting at Mass. Highway with representatives from the state and town consultants to prepare a work list and schedule for the Sutton Street project. He then advised that a public hearing should take place in mid to late August. **4) Central Mass. Regional Planning Commission:** Mentioned that the Central Mass. Regional Planning Commission held a meeting at the Town Hall to discuss regional transportation, in the lower Blackstone Valley. Stephen O’Neil, the Director of the Worcester Regional Transit Authority, gave a presentation and invited Northbridge and other communities to look at the services they provide. **5) Senator Richard Moore/Open House Hours:** Announced that Senator Richard Moore will be conducting an Open House at the Town Hall [Board of Selectmen’s Room] on June 25, 2012, from 5:30 PM to 7:00 PM.

Selectmen’s Concerns. Selectman Athanas/Asked about the status of the Ross Rajotte Bridge – Mr. Shuris stated that after the last Board of Selectmen’s meeting, he received a phone call from a representative at Mass DOT. He was informed that there was another problem between the contractor and Mass DOT and that the sub-contractor will not begin work until they receive in writing a signed notice to proceed change order. Town Manager Kozak mentioned that he spoke to Representative Peterson about this issue, who in turn, has been talking to the district to see what can be done to get this

project moving. Mr. Shuris stated that the installation and utility work for the Douglas Road Bridge has begun and is moving forward. **Selectman Melia**/Mentioned that people are concerned about the detour design for the Douglas Road Bridge. Mr. Shuris explained that once the heavy work begins in July, the first phase will be to install a temporary bridge adjacent to the bridge. After that bridge is installed, they will section off one of the lanes and demolish it and there will be two lanes all the time. He also mentioned that the completion date for the Douglas Road Bridge is August of 2014. **Selectman Ampagoomian**/Asked about the status of the Memorial Square traffic lights and Mr. Shuris replied that they have had the Worcester Signal Company out here repeatedly. Rob Van Meter, Highway Superintendent, advised the Selectmen that the Worcester Signal Company has come out to Memorial Square twice and both times they have found shortages in the wires. Mr. Van Meter thinks there is a bigger problem because after a few weeks the problem returns. **Selectman Marzec 1)** Announced that he attended the Central Mass. Regional Planning Commission meeting on regional transportation and felt it was excellent and would be beneficial for the elderly in town. **2)** Asked Mr. Shuris about the condition of the baseball field at Vail field. Mr. Shuris stated that they added drainage on the far end of the parking lot to try and break up that problem but they will also need to have some type of barrier near the first base side to prevent the water from surging onto the field. Mr. Shuris mentioned that he and the Highway Superintendent will need to look into this issue a little more and come up with something safe and doable. **3)** Received a phone call from a citizen on another Board in town asking for the Board of Selectmen to revisit remote access for meetings. **Selectman Ampagoomian** announced that a former Northbridge resident, Kathleen Turner, was voted Teacher of the Year for the Commonwealth of Massachusetts.

A motion/Mr. Ampagoomian, seconded/Mr. Marzec to adjourn the meeting. Vote yes/Unanimous.

Town Manager Kozak stated that the Town had a one-year lease agreement with the Rockdale Village Foundation back in 1994, which has since lapsed. Mr. John Berkowicz, Representative for the Oliver Ashton Post #343, mentioned that the members voted to have a six-month lease so they could explore other options because of their current financial situation. He noted that the members of the Oliver Ashton Post #343 voted to add an addendum to the lease agreement, which will include a fee for the use of their property. Mr. Berkowicz mentioned that from July 1, 2012 to December 31, 2012 a fee in the amount of \$7,500.00 shall be paid to the American Legion Oliver Ashton Post #343 and then effective January 1, 2013 to December 31, 2013 a fee in the amount of \$15,000 shall be paid to them and thereafter. Town Manager Kozak advised the Selectmen that there are no funds available right now to pay the American Legion Oliver Ashton Post #343. Selectman Melia noted that because there were no funds appropriated at the Spring Annual Town Meeting for this that an article would need to be placed on the Fall Annual Town Meeting Warrant for approval. Mr. Berkowicz stated that he thinks that the members would agree to wait but because of their financial state, he doesn’t know if the American Legion can survive until then. He then noted that there are currently two realtors who are interested in the building/property. Selectman Marzec mentioned that something has to be done sooner rather than later because if we lose the American Legion fields, then the sports played in town might be in jeopardy because of the lack of field space. The Board of Selectmen agreed that they would like to help out but legally they can’t right now. A motion/Mr. Ampagoomian,

seconded/Mr. Melia to approve the Rockdale Village Foundation lease agreement for six months. Vote yes/Unanimous. Town Manager Kozak suggested the Board approve the Oliver Ashton Post #343 lease agreement without the addendum. A motion was made by Mr. Melia to approve the Oliver Ashton Post #343 lease agreement without the addendum but then Mr. Parker stated that it wouldn't be right to move forward on the lease without the addendum. Selectman Athanas suggested waiting and Selectman Melia withdrew his motion. Selectman Ampagoomian asked if the Board could make a motion to place an article on the Fall Annual Town Meeting and Town Manager Kozak replied yes. A motion/Mr. Ampagoomian, seconded/Mr. Melia to ask Town Counsel to prepare an appropriate warrant article regarding the Oliver Ashton Post #343 lease be voted on at the Fall Annual Town Meeting. Vote yes/Unanimous.

Operation Graduation [Fred & Maureen Beauregard]/Request to conduct a Boot Drive at Memorial Square and Ovia Square on Saturday, October 13, 2012 from 9:00 A.M. to 3:00 P.M.

A motion/Mr. Melia, seconded/Mr. Athanas to approve Operation Graduation's request to conduct a Boot Drive at Memorial Square and Ovia Square on Saturday, October 13, 2012 from 9:00 AM to 3:00 PM subject to the Town's Boot Drive policy and the safety requirements of the Northbridge Police Department. Vote yes/Messrs. Athanas, Melia, Ampagoomian and Nolan. Abstain/Mr. Marzec.

Northbridge Housing Authority/Request to hire special counsel. Chairman Nolan announced that the Northbridge Housing Authority notified him that they have withdrawn their request this evening.

Fall Annual Town Meeting [October 23, 2012]/Vote to place ballot question(s) on the November State Election Ballot. Tom Pilibosian, Chairman of the Building, Planning and Construction Committee, advised the Board of Selectmen that his committee will not be placing a ballot question on the November State Election Ballot. He mentioned that his committee will wait to place an article on the Spring Annual Town Meeting after they have had more time to review all options for a new DPW facility. Selectman Marzec wanted to clarify that the proposal for a steel building [DPW facility] mentioned by Mr. Roger Mathieu earlier this evening is not something new and in fact was brought up over a year ago. Selectman Athanas suggested looking at the Old Colony property for a new DPW facility and said it's a well constructed building and the price is reasonable. Selectman Ampagoomian mentioned that this item has gone on too long and recommended the Board move forward. Selectman Marzec asked how can the Board vote to place ballot questions on the November State Election Ballot when they don't have any questions. Town Manager Kozak stated that originally he thought the Building, Planning & Construction Committee might move forward with the Fletcher Street site for a DPW facility, however, the committee requested to do more due diligence before proceeding. Chairman Nolan stated that no action will be taken by the Board of Selectmen on this item.

Dog Complaint/Issues. Present: Daniel Chauvin, Animal Control Officer, Walter Warchol, Chief of Police, and Kenneth Goulding, Resident. Town Manager Kozak announced that Mr. Goulding filed a complaint on a dog in town who he feels is very aggressive and vicious. That being said, he mentioned that this evening the Board of Selectmen will need to determine whether or not to move forward with a dog hearing. Chief Warchol advised the Board that he received and reviewed the complaint and had the Animal Control Officer, and Lieutenant Labrie investigate the complaint. Chief Warchol mentioned that his department has had no other complaints on this dog. He also said that its owner moved from Overlook Street to Tracy Drive, where the dog is currently residing. Mr. Chauvin stated that he responded to an incident that took place at the Town Beach. He found Mr. Goulding, his dog, and the dog in question to be running at large, both unleashed, on town property. Mr. Chauvin stated that the dogs had an altercation but that neither dog drew blood. He also mentioned that he did not site either of the owners for not having leashes on their dogs because this was their first offense. He did note that the dog in question was allegedly blamed for an incident in which the dog bit someone and was quarantined. Mr. Chauvin stated that he was puzzled by the dog being quarantined because the dog never broke the

individual's skin [this is clearly stated on the quarantine notice]. He recommended that because there have been no other incidences there is no need for a dog hearing. Chief Warchol mentioned that he checked with neighbors on Overlook Street and no one has had any complaints regarding this dog. Mr. Goulding stated that he fears for his dog's safety. Selectman Ampagoomian asked for clarification of the location of the Town Beach and asked Mr. Chauvin if it's the Old Sea Scout Camp and Mr. Chauvin replied yes. Selectman Ampagoomian then mentioned that this is private property owned by the Whitinsville Water Company. Selectman Melia stated that he is satisfied with the Police Department's and Mr. Chauvin's investigation and then suggested to the owners that if they see one another while walking their dogs then one of you should turn and head in the other direction to avoid your dogs having an altercation.

School Committee Vacancy/Present: Michael McGrath, Chairman of the School Committee. Mr. McGrath mentioned that the Northbridge School Committee has been left with one vacancy and that per the town charter, they need to engage in a process with the Selectmen to fill the vacancy. He suggested posting the vacancy on the town's website and on the school's website asking interested candidates to fill out and submit a Talent Bank application by July 27, 2012. He then asked that a Joint Meeting of the Board of Selectmen and School Committee be held on August 14th at 6:30 PM to appoint a new member to the School Committee. The Board of Selectmen agreed to attend the School Committee meeting on August 14, 2012 @ 6:30 PM to appoint a new member to the School Committee.

Pavement Management/Update. Present: James Shuris, DPW Director. Mr. Shuris mentioned that he is very excited about the Roads Program and stated that it will begin in the next couple weeks on Mendon Road and Quaker Street. He informed the Selectmen that a notice regarding the road work will be placed on the town's website for residents to view. That being said, their goal is to have those segments completed before Labor Day. Selectman Marzec asked Mr. Shuris to assure him that Sprague Street will be taken care of by cleaning out the catch basins. Mr. Shuris replied that the money they received from the townspeople to buy the Cab and Chassis catch basin cleaner will be purchased shortly, so he reassured Selectman Marzec that the catch basins on Sprague Street will be cleaned out. He also noted that a new chipper was just delivered last week. Selectman Melia thanked Mr. Shuris for taking care of the fields and replacing the fence on Main Street across from Town Hall. Mr. Shuris then thanked the School Department and Paul Halacy for their assistance in providing them with herbicides for weed and poison ivy control in the Crescent Street area and the Willow Street parking lot.

Union Street Brook/Present: James Shuris, DPW Director and Kevin Deneault, Engineering Aide/Intern. Mr. Shuris mentioned that Mr. Deneault put together some handouts for the Board to review on the Union Street/Central Street Drainage Project. He explained that there was a lot of information to review and that Mr. Deneault asked a lot of questions and interviewed the residents in the Union Street area before he began the study. Continuing, Mr. Deneault provided some key points included in the Union Street Brook drainage issue study: analyzed drainage and topographical maps for the Union Place Subdivision, field investigation of drainage system for the new athletic fields behind the high school, as well as the unnamed brook, reviewed construction plans designed by Guerriere & Halnon, Inc. for the Union Place development, examined documents prepared by the DPW, Conservation Committee, and the Planning Department, investigated two studies that were completed by Earth Tech in July of 1999 and July of 2006, as well as the updated drainage plans of 2001 from Guerriere & Halnon, Inc., read and assessed the drainage system test and maintenance and repairs that were completed on the unnamed brook and stormwater detention basins by the DPW in 2001 and 2008, visited and took photographs of the unnamed brook, drainage channel, culverts, detention basins, as well as properties (with owner's permission) contiguous to the brook, interviewed residents of the area during the week of June 29th, and compared the 1982 and 1944 United States Geological Survey [USGS] Historical Ortho Maps. Mr. Shuris suggested that in the future the Town will need to do a better job in the review process on subdivisions and construction projects and how they affect us, not just onsite, but what happens to the

contiguous areas. He said that right now it is literally impossible to enlarge the culvert underneath the railroad tracks and feels that the town needs to create some type of detention pond to hold the water longer before releasing it so quick after a rainfall. Mr. Deneault provided action items: follow up with Mark Anderson of Heritage Design, measure detention basins and compare volume and size of these areas to the plans, shoot rim and grade elevations on all outfalls from Union Street, the drainage channel, and to the railroad culvert, contact the Central Mass. Mosquito Control Project of Northborough, MA (town member of project), field observations indicate a need to dredge the channel using the Central Mass. Mosquito Control Project agency, field work and/or others as necessary. Mr. Shuris mentioned that the town has certain employees who live in the area and these employees help maintain the brook. He noted that he would like to address the drainage problem soon but needs special equipment and authorization from the Conservation Commission and/or go with the Central Mass. Mosquito Control route where they don't need permits and they have the right equipment to handle this project. Selectman Ampagoomian asked if they need legal approval from the land owners and Mr. Shuris stated that he thinks Mark Anderson of Heritage Design can provide him with this information and then noted that he would never allow his employees to take an excavator or backhoe into someone's backyard without proper approval. Selectman Ampagoomian asked Mr. Shuris to provide him with a cost analysis to see what it will cost the taxpayers of Northbridge to take care of this drainage problem.

Remote Participation. Selectman Marzec explained that he brought this topic to life again because he received several phone calls from interested committee members. He feels that by having remote participation this would allow the individuals who serve on various boards and committees in town the opportunity to better serve their community. Town Manager Kozak informed the Board of Selectmen that out of 50 towns, 18 have approved remote participation and stated that other towns are starting to adopt remote participation slowly but surely. Selectman Melia stated that he has never been in favor of this and is still not in favor of remote participation. Selectman Marzec feels that the Board should consider it for emergency situations. Selectman Ampagoomian and Selectman Athanas both stated they are not in favor of remote participation. Chairman Nolan mentioned that because the majority of the Board is not in favor of remote participation he will not be placing this item on a future Board of Selectmen's agenda.

Town Manager's Report. 1) Northbridge Memorial Town Hall – Matching Grant: Mr. Kozak notified the Board that he received a letter from the Massachusetts Historical Commission informing the Town that the Northbridge Memorial Town Hall was selected for a matching grant in the amount of \$45,000.00 from the Commission's Round 18: Massachusetts Preservation Projects Fund. He thanked Gary Bechtholdt, Town Planner, for doing a great job on putting the application together for the Town. **2) Blackstone Valley Vocational Regional School – Capital Projects:** Received a letter from the BVVRS on the proposed capital improvements to their facility and wanted to inform the Board of the proposed work and if they have any questions or suggestions to let Superintendent Fitzpatrick know. **3) Central Mass. Selectmen's Concerns. Selectman Athanas/1) Asked Town Manager Kozak about the status on the water trucks turning around at Plummer's Park. Town Manager Kozak replied that he contacted the Chief of Police to investigate the situation who in turn found out it was related to the Riverdale Water Company. The Chief of Police said there shouldn't be any more problems. **2)** Mentioned the status of a Facilities Maintenance Program and suggested talking about this in the near future. **3)** Suggested that the Town should look into the Old Colony Building for the new DPW Facility. **Selectman Marzec/1)** He

suggested moving forward with a Facilities Maintenance Program and asked Selectman Athanas to put together a committee. **2)** Asked about the status of the Ross Rajotte Bridge because the businesses over there are looking for an update. **3)** Asked Town Manager Kozak to find out if the Northbridge Representative to the Blackstone Valley Regional Vocational School Committee can come to a future Selectmen's meeting to discuss the direction of the school. **Selectman Melia**/Mentioned that Roger Mathieu [a former Selectman] spoke earlier this evening, under Citizens Comments and Input, regarding the business park on Route 122. He stated if he remembers correctly, the Town already looked at this property and recalls someone telling him there is too much ledge over there. Mr. Tom Pilibosian, Chairman of the Building, Planning and Construction Committee also recalls hearing that there was a lot of ledge on that site and then mentioned if that was the case it would be very costly for the Town to try and develop a business park on that site. Selectman Melia suggested that Mr. Pilibosian research past minutes to see what transpired with that particular site.

A motion/Mr. Marzec, seconded/Mr. Athanas to adjourn the meeting. Vote yes/Unanimous.

Chairman Nolan stated that Barbara Gaudette from the Planning Board has arrived and would like to discuss Item I, under decisions - Street Acceptances. Ms. Gaudette mentioned that the Planning Board has not made a decision on whether or not they will recommend to layout Sandtrap Court and a portion of Shining Rock Drive in the Shining Rock Golf Community. The Planning Board recommends that the Board of Selectmen vote their intent to layout both roads and turn it over to the Planning Board for their review and recommendation. A motion/Mr. Marzec, seconded/Mr. Melia to intend to lay out a portion of Shining Rock Drive [Shining Rock Golf Community] and refer this matter to the Planning Board. Vote yes/Unanimous. A motion/Mr. Marzec, seconded/Mr. Athanas to intend to lay out Sandtrap Court [Shining Rock Golf Community] and refer this matter to the Planning Board. Vote yes/Unanimous.

Blackstone Valley Regional Vocational Technical High School/Present: Jeff Koopman & Dr. Michael Fitzpatrick, Superintendent. Mr. Koopman provided the Board of Selectmen with a blueprint of the Blackstone Valley Regional Vocational Technical High School's plan to install science labs on the first floor. Dr. Fitzpatrick spoke about the school's science lab plans and how they planned to fund them. He mentioned that the School will pay for the labs, along with their partnership with the Massachusetts School Building Authority. Selectman Marzec thanked both Dr. Fitzpatrick and Jeff Koopman for coming to tonight's meeting and then mentioned his concerns regarding whether or not Valley Tech is adequately serving the population that needs to be serviced by a vocational high school. He also stated that people from the Northbridge schools are wondering if Valley Tech is taking away some of our better performing students that do not necessarily need a vocational experience. Selectman Marzec went on to say that it could be possible that Northbridge High School will be dealing with more dropouts that would benefit from a vocational experience and it makes Northbridge High School look worse and Valley Tech look better with their improving test scores. Dr. Fitzpatrick explained that they use a state approved admission process when accepting students at Valley Tech. He mentioned that the acceptance process includes grades, attendance, behavior, and an interview process. He also stated that they rely upon the recommendation of the sending School's guidance counselor. Selectman Athanas suggested getting back on track with the discussion of building science labs at Valley Tech. He asked Dr. Fitzpatrick how much will the Town of Northbridge have to pay towards the new science labs and Dr. Fitzpatrick replied "nothing". Dr. Fitzpatrick stated that they do not wish to ask Northbridge or any of the other 12 towns for funding during these hard economic times. He then explained that each year the Department of Revenue examines the School's resources and any reserves and puts them into the "Excess and Deficiency" fund. The department then notifies the 13 towns, the Town Selectmen and Town Treasurers of the balance. All 80 vocational schools in the state are allowed to keep up to 5 percent of the operating budget in a fund for excess and deficiency. Dr. Fitzpatrick also stated that they are well below the maximum and the last time the state certified our number, it was \$630,000. That being said, he stated they plan to use only \$250,000 of that to reduce their operating budget for this year. Chairman Nolan thanked Dr. Fitzpatrick and Mr. Koopman for coming in to advise them of their plans to build two new science labs at the Valley Tech and also noted what a great job they do in handling their operating budget.

Riverdale Water Company/Present: James Shuris, DPW Director, James Knott, Owner of Riverdale Water Company and Jayne Knott, Daughter. Mr. Shuris announced that he attended a meeting regarding the Riverdale Water Company. Mr. Shuris explained that a hydraulic model was

developed and then Riverdale Water Company presented four different scenarios for the future. He mentioned the first scenario is to blend their water with the Whitinsville Water Company's water. Mr. Shuris then went on to say the other three options are basically to create a separate, low-pressure zone for the Riverdale area. It's all based on simulation and is preliminary at this point. It's not based on calibrated flow or pressures. According to Mr. Shuris, measurements haven't been made and they have used information that was made available from the Whitinsville Water Company and put it into a model to simulate conditions. He mentioned that Riverdale Water Company also has to go through the Department of Environmental Protection for permitting, the Department of Public Utilities for rate setting and to talk with the Whitinsville Water Company. In addition, the chemistry of the water, which is going to be an integral part of their success, Mr. Shuris stated that the Riverdale Water Company needs to prove to the DEP that they can provide enough water to meet the needs of the new proposed Rockdale low pressure water zone. Selectman Melia stated that an Adhoc Committee should be developed once all the information is provided to the Board of Selectmen and that he and others are only interested in the best and cheapest water for Northbridge. Mr. Knott said there is resistance to change because the Town has been serviced by the Whitinsville Water Company since the beginning of time and the Whitin Machine Works pipes go to all of their residences. According to Mr. Knott, the town currently uses his pipes to send water to Rockdale. He claims that the process, which he agrees is years away, would only take him a half-day's work to begin, as he would have to turn a valve on. Mr. Knott mentioned that the town's water is full of iron and manganese, which his water is free of. Town Manager Kozak noted that there is still more information that is needed before moving forward with the Riverdale Water Company.

DPW Facility. Selectman Marzec mentioned that the Board of Selectmen will be looking at all their options for a new DPW Facility once again and said that a group of concerned citizens, including him, will be presenting a proposal for a DPW facility at the next Building, Planning and Construction Committee meeting. He stated they are looking for a solution as to where the DPW facility should be housed and how much money will it cost the taxpayers in town. Mr. Marzec also stated that he met with the Attorney General and the Assistant Attorney General back in July regarding the town proposing to do this project under 44E and if it's possible and they both said yes. He then stated that we need to look at other options in addition to the ones already presented and try to come up with a viable alternative to the present conditions the Highway Department is experiencing on Fletcher Street. He then asked all interested parties to attend the next Building, Planning and Construction Committee meeting to entertain the proposal that the group of concerned citizens will be putting forth. Selectman Melia mentioned that the Town of Charlton just built a DPW facility for three million dollars and suggested that the Building, Planning and Construction Committee talk with the Town of Charlton. Selectman Nolan mentioned that after reviewing the 44E, it is still very unclear to him as to whether or not the Town of Northbridge can use the 44E. He then stated that before moving forward, he would like an opinion regarding the use of 44E in writing from the Attorney General's Office. Mr. Shuris stated that the DPW facility can never be a modular building but it can be pre-engineered. He also mentioned that you cannot build a DPW facility for \$1 million dollars because of all the soft costs, such as project engineering, project managers, inspections, furnishings, fire protection, water, sewer, electrical and infrastructure. Mr. Shuris went on to say that he is always looking for ways to do things cheaper and the main message that he wants people to know about is the Department of Public Work's needs. He mentioned a needs analysis has been done and the size of the facility has gone from 23,000 square feet to 19,000 square feet. He also stated that the DPW has 34 pieces of equipment and the majority of them, in order to last as long as they can, need to be housed indoors. Selectman Athanas feels the town would get the best bang for its buck if they consider the Old Colony site for a new DPW facility. Selectman Marzec recommended that if anyone has questions regarding the 44E project to contact the Attorney General's Office.

Selectman Athanas asked Mr. Smith if he received all his permits for the building of his new home and Mr. Smith stated that his septic has been approved, the well permit is in-hand, the lot has been cleared, and the driveway is almost done. Town Manager Kozak mentioned that he asked the Board of Health and the Building Inspector for input in this process because he never had this type of request come up. He explained that the Board of Health needs to address sewage disposal, potable water, and solid waste disposal requirements and concerns before granting Mr. Smith's request. He then stated that because the Board of Health doesn't meet until next week, Mr. Smith was hoping that the Board of Selectmen would grant his request to place a trailer at West Hill Road contingent upon the Board of Health's approval. Town Manager Kozak also noted that the Building Inspector suggested that the Board of Selectmen follow the process required for a special permit. Mr. James Sheehan, Building Inspector, explained that a special permit process should be followed and a notice regarding the trailer being placed at West Hill Road has to be advertised for two consecutive weeks and then abutters need to be notified fourteen days prior to the meeting. A motion/Mr. Melia, seconded/Mr. Ampagoomian to grant permission to Ross Smith to place a trailer on Lot-6 West Hill Road, Northbridge, contingent upon the approval of the Board of Health at their next scheduled meeting and that a certified letter/notice [from the Board of Selectmen] be sent out to all abutters notifying them of such request. He mentioned that Mr. Bedigian is currently working on putting together various site options, operational needs and cost estimates for a DPW facility. Mr. Bedigian explained that he is looking at Douglas Road, Linwood Avenue, and the Wastewater Treatment Plant as possible sites for a new DPW facility. Selectman Melia asked Mr. Bedigian to contact the group of individuals (who gave a presentation on building a new DPW facility at the Wastewater Treatment Plant) for their proposal on what it is going to cost for everything. DEP wants the owner to give up the land in the back along the river for a Conservation Restriction. Certificate of Adoption/Pre-Disaster/Hazard Mitigation Plan. Present: Ryan Lundergan, Associate Planner, Central Mass. Regional Planning Commission. Mr. Lundergan advised that after five years of work, the Central Mass. Regional Planning Commission [CMRPC] has completed a Pre-Disaster/Hazard Mitigation Plan. He noted that out of 40 towns, 28 towns participated in the project and 12 towns did not participate. Mr. Lundergan provided the Board of Selectmen with handouts, including a map of the towns and cities that were involved. Currently, the CMRPC is conducting outreach to the towns and asking them to adopt the plan. Mr. Lundergan provided the Select Board with the portion of the plan that specifically refers to the Town of Northbridge and which identifies local hazards in Northbridge that should be addressed now and in the future. He pointed out that the overall goal of the plan is to reduce the loss, and risk of loss, to persons and property from the key hazards identified. Once a town adopts the plan, it allows them to apply for pre-disaster mitigation funds. Mr. Lundergan also said there are no costs or requirements to the town should they adopt the plan. Town Manager Kozak asked the Board of Selectmen to take this under advisement and place this item on a future agenda for a vote.

Phase II Environmental Site Assessment [2040 Providence Road]/Present: David LaFrance, Fuss & O'Neil, and Ryan Lundergan, Central Mass. Regional Planning Commission [CMRPC]. Mr. David LaFrance informed the Selectmen that on a scale of zero to ten, environmental contamination at the former Northbridge Auto Wrecking Inc., 2040 Providence Road is about a four. He then presented a report on Phase II of an environmental site assessment of the approximate 24 acres owned by Paul Klocek of Northbridge. Mr. LaFrance explained that an auto salvage business operated from the site for more than 60 years and over the last couple of years "tens of thousands of tires" and debris has been removed. That being said, left behind is petroleum contamination in the soil and groundwater caused by leaking underground tanks and shallow soil contamination by metals such as cadmium, nickel and lead. Mr. LaFrance said he could say with some confidence that the underground plume of petroleum has not made it into the river. The assessment shows a contamination problem that won't blow you away as too big a problem to be solved. He then said that long term groundwater cleanup is expensive, but it's very small relative to the scale of the property. CMRPC conducted the assessment at the request of selectmen and funded by the Environmental Protection Agency. Mr. LaFrance noted the hope is the property will eventually be sold and developed, but whether by the current or new owners, it will have to be cleaned to EPA regulations before development. He further mentioned that Gerard Caya and Daniel Perry, who work for Klocek, did a good job of cleaning up the site and said it could be a viable business property. The CMRPC document can be a resource for the property owner, who is also conducting environmental studies. Mr. LaFrance said the next step is for Mr. Klocek to submit a clean-up plan of groundwater and shallow soil to the Mass. Department of Environmental Protection.

Chairman Nolan announced that Selectman Marzec would like to make a motion. That being said, Selectman Marzec explained that due to the Fall Annual Town Meeting Warrant Articles being on the agenda this evening, he asked the Board of Selectmen if the items under discussion could be moved to now. A motion/Mr. Marzec, seconded/Mr. Nolan to move Item G and Item H, under Citizens' Comments. Roll Call Vote: Mr. Athanas/Yes, Mr. Marzec/Yes, Mr. Nolan/Yes, Mr. Ampagoomian/No and Mr. Melia/Yes.

Commercial Trailer Complaint. Present: James Sheehan, Building Inspector, Paul McKeon, Chairman of the Board of Health, Denis Latour, and Charles Berry, Owner of Dotta's Kitchen. Town Manager Kozak announced that this item was discussed under Citizens' Comments a few weeks ago and that the members of the Board of Selectmen requested that he place this topic under discussions. Mr. Kozak also mentioned that he received input from both the Building Inspector and Board of Health. Mr. Latour explained that he is not happy with a decision that was made by James Sheehan, Building Inspector, to allow a Hot Dog Trailer – Charles Berry d/b/a Dotta's Kitchen to operate on Main Street. He mentioned that for the past 20 years he has volunteered his time on Town boards and committees including, Planning Board, Bylaw Review Committee, Board of Assessors, Recycling Committee and Fence Viewer. He noted that rules and regulations are constantly changing in Massachusetts and anyone can be in violation without being aware of it. He feels the hot dog trailer is in violation of the following – zoning, bylaw, ADA, and historic issues. Mr. Latour mentioned that this town does not allow permanent commercial or residential trailers in any zone or location and stated that this is to protect property values and to maintain our tax base. Temporary trailers are allowed and permitted by the Building Inspector after reviewing the circumstances and setting conditions. He then asked the Board of Selectmen to give their opinion on this matter to Jim Sheehan, Building Inspector, as he feels after three years of the hot dog

trailer being located in the same area, for several months each year, that the hot dog trailer is temporary and that it falls within the intent of the Town of Northbridge's Bylaws. Mr. Sheehan stated that the property in question is 355 Main Street and contains a motor vehicle trailer which is used as a temporary food concession stand. He mentioned that the use does not contain any permanent or temporary structures and is located within the Industrial One Zoning District. The vehicle trailer has Board of Health approval and has been licensed by the Board of Selectmen for the past 4 years. A temporary building permit has also been issued for the commercial trailer in accordance with section 9-702 of the Town Bylaws. All required electrical and plumbing permits were obtained. Site plan approval was not required, and in conversation with the police chief no problems have been noted with the temporary operation. Mr. Berry stated that he started his business 4 years ago by purchasing a brand new trailer. He has never had any complaints and he keeps the surrounding area as clean as possible. He stated that he even picks up the trash across the street, which isn't his responsibility. Mr. Berry also mentioned that he has lived in Town for 22 years and has worked in town for over 28 years. Paul Mckeon, Chairman of the Board of Health referenced a memo that was provided to the Town Manager on September 13, 2012. He mentioned that Dotta's Kitchen [Charles Berry, Owner] has been in full compliance with all state and local health regulations governing its food service operation. He explained that Dotta's Kitchen has been licensed and inspected by the Board of Health since September 5, 2008 and then stated that he wished all the restaurants had a food establishment inspection report as good as Dotta's Kitchen. Mr. Sheehan mentioned that he asked the Police Chief if there were ever any complaints with Dotta's Kitchen in the past 4 years and the Police Chief replied no. Selectman Marzec, Selectman Ampagoomian and Selectman Melia each stated that they have no problem with Dotta's Kitchen continuing to run their business on Main Street. Mr. Latour stated that Mr. Sheehan said the trailer was accessory use and gave them a building permit and then asked Mr. Sheehan what is the setback for an accessory use in this particular case. Mr. Latour is trying to make a point because he was on the Bylaw Review Committee and stated that this is a bylaw (temporary trailer) and the Zoning Board of Appeals has no authority over bylaws. He then stated that the town is going to end up with a bunch of temporary trailers and he is trying to protect the historic value of the town.

School Committee Vacancy/Present: Michael McGrath. Mr. McGrath explained that he is here this evening to bring some closure to the outstanding issue of the school committee vacancy. Currently, the school committee is a nine member board, but due to changes in the Town's Charter it will become a five member board at the next Spring Annual Town Election. He noted that there was a vacancy because they didn't have any people run for the open spots this past spring. He mentioned that the openings were posted but no one applied during the allotted timeframe. That being said, he did have some individuals express interest by email and another who completed a Talent Bank Application for the open vacancy. Due to the expired timeframe, if anyone is interested now, they will have to wait until the springtime to apply. Mr. McGrath asked the Board of Selectmen to support his board by moving forward with an eight member board until the spring election.

Raccor Foods LLC d/b/a Little Coffee Bean [Darrell Laws]/Application to transfer the Common Victualler's License from J.T. Little Coffee Bean [Jennifer Menard] to Raccor Foods LLC d/b/a Little Coffee Bean [Darrell Laws]. Vote yes/Unanimous.

He stated that the Town has put out an RFP for land and/or buildings and received one proposal from a property owner on Douglas Road (Old Colony Building). Mr. Shuris, DPW Director noted that the DPW provides service to the entire town, not just the Highway Department. They provide building facilities maintenance, road work and drainage, highway, snow plowing, tree service, administration of water and sewer, all procurement and engineering, etc. The key to building a highway facility is the location. He then mentioned that the current DPW site is a great location, however it will cost around \$8 million dollars to reconstruct a new facility at this location. That being said, Mr. Shuris mentioned that the Douglas Road (Old Colony Site) is a great deal for the money \$995,000 [building and property]. He then stated that the total cost would be \$3.1 million should the town residents vote to go with the Old Colony site. Mr. D'Amato stated that the Finance Committee is not in favor of this article and then mentioned that the Finance Committee suggested that the Selectmen hold a Special Town Meeting on December 4, 2012, with a Special Ballot question. They feel there should be one vote on the ballot that includes the price to purchase the land, building, and all the updates needed for the DPW to operate. Selectman Athanas is in favor of the Old Colony site and said it's a good and fair price. He then mentioned it would be an easy sell to go with a Special Town Meeting and roll everything into one. A motion/Mr. Ampagoomian, seconded/Mr. Athanas to pass over Article 4. Vote yes/Unanimous. The Finance Committee voted unanimously not to support Article 4. Selectman Marzec noted that he is not in favor of the Old Colony site and would like to have some questions answered. He asked two questions; 1) what is the town getting for \$3.1 million dollars? and 2) how much money has been spent on HKT Architects, Inc.? **Vote to schedule a Special Town Meeting [December 4, 2012].** A motion/Mr. Ampagoomian, seconded/Mr. Athanas to schedule a Special Town Meeting for December 4, 2012 @ 7 P.M. and open the warrant on Friday, October 19, 2012, and close the warrant on October 26, 2012 at noon time. Town Counsel will prepare an agreement and article in case of taking. Town Manager Kozak suggested the Board of Selectmen take no position this evening until he hears back from Town Counsel. A motion/Mr. Ampagoomian, seconded/Mr. Melia to take no position on Article 6. Vote yes/Unanimous. The Finance Committee voted not to support Article 6. **Article 7 [Acquisition of easement or other land interest in property located near 2-4 Fletcher Street to maintain Douglas Road and Bridge]** - A motion/Mr. Marzec, seconded/Mr. Melia to support Article 7. Vote yes/Unanimous. The Finance Committee voted to support Article 7. **Article 8 [Repair concrete floor abutments at the Rockdale Fire Station]** – Town Manager Kozak recommended the Selectmen pass over Article 8 because of procurement laws. The Finance Committee voted to support Article 12. **Article 13 [Establish \$3,000 as the minimum fair cash value for personal property accounts to be taxed]** - Town Manager Kozak mentioned that the Board of Assessors would like to adopt M.G.L. Chapter 59 Section 5 Clause 54 which allows the town to have a minimum cash value for personal property accounts of \$3,000.00. A motion/Mr. Melia, seconded/Mr. Ampagoomian to support Article 13. Vote yes/Unanimous. The Finance Committee voted to support Article 13. **Article 14 [Petition the General Court for Special legislation to establish a building maintenance fund]** – Town Manager Kozak highly recommends passage of this article with the amended verbiage, per the Finance Committee: Section 4, second sentence should read: Monies in the fund may be appropriated for any purpose related to the maintenance of town-owned buildings and facilities. A motion/Mr. Athanas, seconded/Mr. Ampagoomian to support Article 14 with the recommended verbiage as stated above from the Finance Committee. Vote yes/Unanimous. The Finance Committee voted to support Article 14. **Article 15 [Amend Zoning Bylaws Chapter 173 by adopting a (new) comprehensive Zoning Overlay District Map]** – Town Manager Kozak explained that by adopting this article will just put all the overlay district maps into one comprehensive map. A motion/Mr. Marzec, seconded/Mr. Ampagoomian to support Article 15. Vote yes/Unanimous. The Finance Committee voted to support Article 15. **Article 16 [Street Acceptance: Sandtrap Court – Shining Rock Golf Community]** - A motion/Mr. Melia, seconded/Mr. Athanas to support Article 16. Vote yes/Unanimous. The Finance Committee voted to support Article 16. **Article 17 [\$1.8 million to procure services of an engineering firm to prepare plans using 44E construction to build a DPW facility]** – Town Manager Kozak explained this is a petition article and asked if anyone would like to speak on this article. Mr. D’Amato mentioned that the Finance Committee voted not to support this article based on the information provided to the Committee, from Town Counsel, and from HKT Architects who were hired by the Building, Planning and Construction Committee. Mr. D’Amato then read a lengthy email from Chris Thompson, Finance Committee member regarding concerns with using 44E construction to build a DPW facility. He explained that after receiving further clarification from Town Counsel on whether or not 44E can be used to construct a DPW facility and the feasibility study that was done, his board made the decision not to support this article. Chairman Nolan invited the petitioners [Roger Mathieu, John Davis, Neil Mitchell,

Barry Gallant and Bob LaChapelle] to come forward and speak on their article. Mr. Davis called a point of order first to ask why the Selectmen passed over a few articles. Chairman Nolan advised that he spoke to the School Committee about some of their articles and noted that because they were passing them over, the School Committee suggested the Selectmen do the same. Mr. Davis informed the Board that his group is not against other proposals but did state that their proposal stands alone. Mr. Davis stated that he emailed Attorney Anderson at the Attorney General's Office regarding 44E and her response was it is an appropriate method of building in Northbridge. That being said, Mr. Davis then publicly issued an apology to Neil Mitchell, and his wife, Chris, because he's the person who got Mr. Mitchell into this project. He stated it's been such a fiasco since the beginning. Mr. Neil Mitchell mentioned that their plan to construct a new DPW facility will cost \$1.8 million dollars and can be constructed on either the Fletcher Street or Wastewater Treatment Plant site. He then provided the Selectmen with a brief overview of their proposal compared to HKT Architects proposal. He also announced that Attorney Anderson from the Attorney General's Office advised them that they could build a DPW facility in Northbridge using 44E. Mr. Davis mentioned that their proposal can store all the town vehicles in this facility and then noted that their petitioner article is a legal and binding article and should be acted on at town meeting. Chairman Nolan suggested as a Board we take a position on this article. A motion/Mr. Ampagoomian, seconded/Mr. Marzec to take no position on Article 17. Roll Call Vote: Mr. Athanas/Yes, Mr. Marzec/Yes, Mr. Ampagoomian/Yes, Mr. Nolan/No, Mr. Melia/No. The Finance Committee voted not to support Article 17.

**Board of Selectmen's Meeting
November 5, 2012**

A meeting of the Board of Selectmen was called to order by Chairman Nolan at 7:00 PM, Northbridge Town Hall, 7 Main Street, Whitinsville, MA. **Present:** Messrs. Melia, Ampagoomian, and Athanas. **Also Present:** Theodore D. Kozak, Town Manager. Selectman Marzec was absent and it is duly noted.

The Pledge of Allegiance was recited by those present.

Approval of Minutes. October 23, 2012 [Fall Annual Town Meeting] –A motion/Mr. Athanas, seconded/Mr. Melia to approve the October 23, 2012 minutes as presented with the readings omitted. Vote yes/Messrs. Athanas, Melia, and Nolan. Abstain/Mr. Ampagoomian.

Citizens' Comments/Input. Denis Latour, 88 Linwood Avenue, Whitinsville, MA. Mr. Latour wanted to bring attention to the Rockdale Youth Center and its annual raffle to raise money for operating the center. Last year, they raised \$15,000 through the raffle. He mentioned the Youth Center has been very successful and this year there are approximately 35 kids are enrolled in the program, which provides after school programs and homework help. The center also has a summer program. Mr. Latour noted that this year's raffle theme is "Going Green for the Kids". The raffle tickets are \$20 each and will offer three cash prizes: the Grand Prize is \$5,000, the first prize is \$1,000 and the second prize is \$500. Tickets can be purchased at the Whitin Community Center. Mr. Latour thanked everyone.

Public Hearing - 7:05PM/FY 2013 Tax Rate Classification Hearing/Present: Robert Fitzgerald, Principal Assessor, and Denis Latour, Chairman-Board of Assessors. A motion/Mr. Ampagoomian, seconded/Mr. Athanas to open the public hearing. Vote yes/Messrs. Athanas, Ampagoomian, Nolan and Melia. Chairman Nolan then read the public hearing notice aloud. Mr. Fitzgerald announced that the DOR requires this hearing each year. He noted that this process does not raise revenue for the community, that it is just an exercise to set the tax rate, however, if any votes are made it will shift the tax burden to other classes of property. He advised those present that the Board has the option to vote on any or all of the split rate options available for the distribution of taxes. The three options are: 1) Selection of a Residential Factor, 2) Selection of a Residential Exemption, and 3) Selection of a Small Commercial Exemption. Mr. Fitzgerald turned everyone's attention to Exhibit #1, which provides a brief explanation as to what the estimated tax rate should be for FY13. He mentioned last year's tax rate was \$12.81 and the rate is estimated to drop to \$12.37—a decrease of .44 cents, which equates to about a \$150 reduction on the tax bill for an average single family home. Mr. Fitzgerald explained that the reason for some of the decrease was due to the slight increase in the assessed value of properties this year [about \$3.2 million], which accounted for a \$(.03) decrease in the rate; Proposition 2½ added about .29 cents to the rate; New Growth added about .21 cents to the rate; an increase in the Capital Outlay Expenditure added about .36 cents to the rate; and lastly, a reduction of the Debt Exclusion due to the refinancing of the school debt this last year helped drop the tax rate by \$1.27. Mr. Fitzgerald stressed that the figures are approximate and have not been certified by the Department of Revenue as of yet. He then reviewed Exhibit #2, which illustrates the total value of the town by property type and pointed out that since last year, condos went up about \$7million due to some brand new condos at Sand Trap Court [Shining Rock] and also, the completion of the Linwood Mill project, which added another \$4.5 million to the valuation. Next, Exhibit #3 shows the classes of property on a percentage basis: Residential – 86.49%, Open Space – 0%, Commercial – 13.5%, Industrial – 2.46%, and Personal Property – 3.1%. Before reviewing Exhibit #4, Mr. Fitzgerald advised that the exhibit illustrates different scenarios under a split tax rate for an average single family home, average commercial property and average industrial property. Shifting the tax rate would mean a slight decrease on residential taxes but much larger increases in commercial and industrial taxes.

Regarding the selection of a residential factor less than “1”, which would allow the Selectmen to shift the tax burden between classes of property, Mr. Fitzgerald noted that in the past the Board of Selectmen has not advocated for a split rate—that they have always kept a single rate among all classes of property. He further stated that the Board of Assessors recommends maintaining a single rate for all properties. A vote by the Board of Selectmen to select a residential factor less than “1” was not taken.

Selection of a residential exemption distributes taxes among the residential class up to a 20% discount and is based on the average valuation of a home. Residential properties below the average (\$221,000) would get the discount but the difference would be made up by owner of properties valued over the average amount. The Board of Assessors reviewed this and felt that it is not worthwhile to implement an exemption in Northbridge at this time. A vote by the Board of Selectmen to adopt a residential exemption was not taken.

The small commercial exemption would allow a tax break of up to 10% of the valuation for small commercial properties. To qualify, a business must have less than 10 employees and be valued at less than \$1 million. Mr. Fitzgerald pointed out that if you give them a tax break, then it needs to be made up by property owners with businesses that are over \$1 million and/or have more than ten employees. He stated that there are currently 4 communities in the Commonwealth that use this exemption. Mr. Fitzgerald reported that the Board of Assessors does not recommend this exemption. A vote by the Board of Selectmen to adopt the small commercial exemption was not taken.

There being no further comments, a motion/Mr. Melia, seconded/Mr. Ampagoomian to close the Public Hearing. Vote yes/Messrs. Athanas, Ampagoomian, Nolan and Melia. As the result of tonight’s hearing, the Town of Northbridge will continue with a single tax rate [for FY 2013] for all classes of property including residential, commercial, and industrial.

Appointments/By the Board of Selectmen. William Dausey, Conservation Commission. Present: John Brown, Chairman –Conservation Commission. Mr. Brown announced that Mr. Dausey attended a Conservation Commission meeting and then recommended him to be appointed. Overview of Hurricane Incident. Present: Gary Nestor, Fire Chief, Walter Warchol, Chief of Police, James Shuris, DPW Director. Town Manager Kozak mentioned that he asked the public safety officials to come in and provide an overview of the recent hurricane incident. Chief Nestor announced that the Northeast and East Coast suffered a pretty severe storm but our area was not hit as hard. That being said, National Grid sent a liaison out to Northbridge to determine the town's emergencies/problems. They classified the town's emergencies by Priority 1, 2, and 3. Chief Nestor reported that the liaison for National Grid showed up at the Fire Department on Monday and stayed until Friday. He then noted there were several roads that were blocked due to several trees and poles down, which resulted in some power outages. Chief Nestor reported that the Fire Department responded to over 50 calls for assistance in a 4-day period and then mentioned that the Red Cross opened a regional shelter in Millville, MA for anyone in the community needing assistance/shelter. The Northbridge Senior Center offered their facility as a warming center on Wednesday and Thursday for anyone needing it. Chief Nestor mentioned that before the storm hit, announcements were sent through Connect Ed, Code Red, cable and message boards to keep residents abreast of the storm. They were updated as necessary. Chief Warchol announced that the Police Department received 50 serious storm related calls among other routine related calls. He then noted that the Police Department lost power for about 24 hours but was able to operate by using their back-up generator. They received numerous calls regarding power outages, trees and poles down and then commended the DPW for helping to assist as many situations as possible throughout the storm. Chief Warchol then urged the citizens in town who haven't signed up for Code Red to please do so. Mr. Shuris announced that his folks worked very well in communicating with the Fire and Police Department. He stated that both the Highway Department and Sewer Department assisted in the storm and the key attribute was the chipper. The chipper provided the tool that was necessary to get the job done safely and efficiently. Town Manager Kozak thanked the entire emergency management team for all their effort in preparing for the storm. He also thanked all the personnel, public safety, and DPW for all their hard work.

Update on Union Street Brook/Present: James Shuris, DPW Director. Mr. Shuris provided the Board of Selectmen with a copy of his report on the Union Street Brook. He reported that with the assistance of Kevin Denault, DPW Engineering Intern, and his Department, they did a comprehensive study concerning the ongoing Union Street/Central Street Drainage issue. He highlighted all the tasks performed from June 2012 through October 2012. He then stated that based on the tasks that were performed which included the review of existing engineering/surveying studies, field documents, maps, field surveys, and interviews with local residents they concluded that the Union Street/Central Street

neighborhood had previous pre-housing development drainage issues and that the open drainage swale was always a “natural” drainage route. That said, they also made these conclusions based on the pre-existing “poor draining soil conditions” determination and a “natural high ground water elevation conditions” due to the neighborhood’s low topography and “natural” drainage route. They also observed that the outlets that carry the natural water flows under the railroad tracks and Providence Road have a limited capacity to transport these flows. Mr. Shuris mentioned that one of his recommendations will be to keep maintaining this drainage swale after major storms. This will allow everything to keep flowing freely. Selectman Melia thanked Mr. Shuris and Kevin Denault for putting together an excellent and long awaited report. Mr. Melia asked if an additional detention pond could be placed behind the fields or the scheduling of water be dredged from some of the channels as a resolution. Mr. Shuris advised that the retention ponds from the high school down to the Union Street/Central Street are sized exactly the way they were supposed to be designed and built however there is an area to the northwest of these basins there is a natural flow of water that joins in with the swale that goes down through Union and Central Street. There is no easy way to direct this sheet flow. Mr. Shuris stated that he will continue to monitor the brook and will continue to look for ways to effectively handle the situation.

Leaf Pick-Up Program/Present: James Shuris, DPW Director. Mr. Shuris reported that the leaf pick-up program commenced on October 22, 2012 and will remain in effect until the leaves are all picked up or a snow storm occurs. He noted that residents can call the Highway Department and someone will respond within two days to pick up the leaves. Town Manager Kozak asked Mr. Shuris if there was a lot of debris in town from the storm and Mr. Shuris stated no, there wasn’t a lot. Mr. Shuris did suggest if residents had debris in their back yard to not bring it to the front yard/sidewalk. He suggested they bring it to the compost site on Providence Road during the appropriate hours of operation. He then noted if there is roadside debris to contact the Highway Department and they would gladly come by with the chipper to pick it up.

It was a good opportunity for the public to see the needs of the DPW. Mr. Shuris thanked everyone who helped and assisted them on the Open House from 10 AM to 12 PM. He mentioned that several local establishments donated items such as: Whitinsville Water Company donated 100 bottled waters, Shaws – donated gift card, Walmart – donated \$250 Grant, McDonald’s - donated coffee, Danish, and coffee supplies. Marty Green provided the Highway Department with Open House signs and balloons. The open house was very well attended.

Town Manager Kozak mentioned that the Town Clerk has some concerns with tomorrow’s election because of the high school being in session. He recommended to the early voters to try and avoid coming between the hours of 7 AM to 7:30 AM because this is when the buses arrive at the high school to drop off the students.

Selectmen's Concerns. Selectman Athanas /Asked if there was any grant money to fix the Great Hall Room at Town Hall. Town Manager Kozak mentioned that he is always looking for grant money to fix Town Hall however it is very difficult to get interior money. **Selectman Ampagoomian** /Expressed his condolences to the family of Peter Andonian on his recent passing. He will be greatly missed. **Selectman Melia**/Received a few complaints from local package/convenience stores regarding the Board of Selectmen's vote on June 18, 2012 to amend the rules and regulations for the Town of Northbridge liquor license laws to have all employees receive TIPS certification. He mentioned that it is causing hardship on some part-time individuals to attend and pay for training classes. He suggested that the town/Police Department sponsor a one-time training session for the licensee's to attend. He then asked the Town Manager to see if the Police Department could grant a 90-day grace period, for the enforcement of this rule, to give the licensee's some time and an opportunity to obtain their certificates.

A motion/Mr. Ampagoomian, seconded/Mr. Athanas to adjourn the meeting. Vote yes/Unanimous.

Meeting Adjourned: 8:18 P.M.

Liquor License Rules and Regulations/Discuss proposed revision. Present: Walter Warchol, Police Chief. Chief Warchol explained that Town Manager Kozak asked him to do a study on alcohol intervention training programs in surrounding communities. Section 10 of the town's rules and regulations governing liquor establishments requires that all managers and employees of liquor establishments be trained in an alcohol intervention program approved by the Chief of Police or his designee. The police department investigated several options including online alcohol intervention training programs and identified two programs that would fill the requirements of Section 10 of the town's rules and regulations governing liquor establishments: Alcohol Intervention Methods, Campbell Trent, 5 Olive Avenue, Shrewsbury, MA 01545, and JBS Professional Services, James B. Staples, 2 Neptune Road, Suite 307, Boston, MA 02128. The cost of the training program is \$25.00, for each participant, and each participant will receive a 3 year certification following the completion of the training. He mentioned that because the town is requiring Section 10 liquor establishments [managers and employees] to be trained this has created a hardship for some of the establishments and then suggested the Town of Northbridge host an annual Alcohol Intervention Training program for all liquor establishments. He stated that the Northbridge Police Department would gladly coordinate and host this yearly training, prior to the renewal of the licenses. He feels that by hosting the training it would create a uniform training procedure for the community. Selectman Melia stated that he supports Chief Warchol's proposal and then suggested that the establishments be given 90 days to comply with the training requirements. Chief Warchol mentioned that he would have Lieutenant Labrie create a letter advising the liquor establishments of this change and then hand deliver the letter to each of them. Town Manager Kozak asked the Board of Selectmen to amend their policy but first move this item from Discussion to Decision. A motion/Mr. Athanas, seconded/Mr. Ampagoomian to move Item N from discussions to decisions. Roll Call Vote: Mr. Melia/Yes, Mr. Ampagoomian/Yes, Mr. Nolan/Yes, Mr. Marzec/Yes, and Mr. Athanas/Yes. 2013 Annual Liquor License Renewals/Vote to approve. Selectman Melia mentioned that there is a letter addressed to Chairman Nolan from Laurieann's Restaurant asking for relief from the cost of renewing her liquor license. **Present: Laurieann Kayhart, Owner and Brian Caterino.** Mrs. Kayhart mentioned she has put her whole life savings into the restaurant, including borrowing money from family and friends just to keep it going. There are days she has to shut the restaurant down because the parking lot is blocked with heavy equipment and her patrons can't park anywhere. She noted that due to the bridge construction project there have been times they've had to throw all their food away and close the restaurant. Selectman Melia mentioned that this is a unique situation and feels that the state is responsible for their issues and recommends that the Board of Selectmen waive the fee for their alcohol license. He also suggested contacting the state Senators and Representatives to ask them to come to a future meeting for a discussion on the bridge project. Each Selectman concurred with Selectman Melia to support waiving the alcohol fee. Town Manager Kozak did explain this is a unique situation and pointed out to the Select Board that they have never waived a liquor license fee and could be setting a precedent for future license holders. Chairman Nolan advised that the Select Board is not looking to set a precedent but stated each case that comes before them will be taken on a case by case basis. A motion/Mr. Melia, seconded/Mr. Ampagoomian to waive the annual liquor license fee for Laurieann's Restaurant and Bar, Inc., however they are still subject to the payment of all outstanding monies due the Town and receipt of a Certificate of Inspection signed by the Fire Chief and Building Inspector. Vote yes/Unanimous. Selectman Ampagoomian mentioned there is an email in their packet to discuss Mill House Wine & Spirits, Inc. liquor license. **Present: Rob Knapik, Attorney and Alexis Giannopoulos, Manager of Mill House Wine & Spirits, Inc.** Chairman Nolan mentioned that the Board has received inquiries about the opening of the Mill House Wine & Spirits and their liquor license. He noted that the license was granted to Mill House Wine & Spirits, Inc. over a year ago and would like to know the status. Attorney Knapik explained that Mill House Wine will be opening in the Spring of 2013, and then advised the Board that the developer of the project would construct the residential part first and then the commercial. Selectman Ampagoomian stated that it would have been nice to be apprised of this earlier on. Chairman Nolan advised Attorney Knapik and Alexis Giannopoulos to keep the town abreast of their progress. A motion/Mr. Melia, seconded/Mr. Ampagoomian to approve the 2013 Annual Liquor License Renewals subject to the payment of all outstanding monies due the Town and receipt of a Certificate of Inspection signed by the Fire Chief and Building Inspector. Ad-hoc Open Space & Recreation Plan Update Committee. Present Barbara Gaudette, Chairman of the Planning Board & R. Gary Bechtholdt, II, Town Planner.

DPW Project. Present: Selectman James Marzec. Selectman Marzec expressed his concerns with holding a Special Election during a Board of Selectmen’s Meeting. Selectman Marzec stated that he would not support another town meeting regardless of the outcome at the polls this evening and will not support wasting taxpayers money on another special town meeting knowing full well that a two-thirds majority is very hard to obtain in this town. Residents were asked this evening whether or not they supported a debt exclusion for the purchase of the Old Colony Stationery property at 371 Douglas Road for \$995,000, plus the appropriation of \$2.1 million to retrofit the building for use as the town’s new DPW facility. Town Manager Kozak mentioned that because the project failed to receive the two-thirds majority vote needed at the December 4th Special Town Meeting, it wasn’t exactly dead. If the project had passed at the special election, Town Manager Kozak mentioned that the town had “a reasonable amount of time” to bring it back to voters at another town meeting. Since the special election was scheduled before the project failed at town meeting, it had to happen by law. Selectman Marzec said several citizens complained about the election occurring after the voters had already nixed the idea. Selectman Athanas stated that he wouldn’t support another special town meeting, for different reasons. He mentioned that the DPW has been voted down three times and he has no interest in bringing it up in the foreseeable future. Selectman Melia concurred. Selectman Nolan stated that since the topic of a new DPW facility has become such a contentious and divisive issue in town, it’s best to let it go for a while. Selectman Melia said people have become enemies over this project and concurs with Selectman Nolan that the best thing to do is take a break from this project for a while. Selectman Melia stated that what bothers him the most is that the DPW facility problem is not going to go away. Are we going to wait for someone to get injured? Are we going to wait for the ceiling to collapse? What are we going to do? The place is a mess and no one should be working under those conditions.

Town Manager’s Report/1) Sutton Street Reconstruction Project Update: The project is still moving forward. The Conservation Commission approved the wetland requirements and the DPW Director is scheduling a tree hearing sometime in January. Town Manager Kozak mentioned that about 61 trees need to be taken down. The State wants to advertise the project in February. **2) Town Hall Renovation Update:** The masonry and painting work has been completed and only a small punch list of work

remains to be done. We received quotes to repair the windows and a company has been chosen. **3) Budget Reports:** Requested draft budgets from Department Heads to be submitted this week. I will put together projections of revenue and prepare a draft budget in the beginning of January. He mentioned that because he doesn't have any numbers from the Governor's office, he has asked the Department Heads to be conservative and level fund their budgets. **4) Toys for Kids and Teens Campaign:** Announced that residents can still drop off toys at the Town Hall and will be picking up the toys on Friday, December 21, 2012. Town Manager Kozak noted that if any family in town has a need for toys, they will be distributed at 111 South Main Street, Uxbridge on Saturday, December 22, 2012, between the hours of 10 AM and 4 PM. Town Manager Kozak then mentioned that he received the annual wreath from the Evergreen Center and it will be placed outside at the Town Hall. **5) Regional Bus Transportation:** Met with representatives from the Central Mass. Regional Planning Commission and the Worcester Regional Transportation Authority to discuss possible bus routes for the town. We will be able to use the MBTA assessment to provide the bus transportation. Representatives from Central Mass. Regional Planning Commission and the Worcester Regional Transportation Authority will be attending a Board meeting in January to further discuss this matter. **6) Drug Paraphernalia Regulation:** The Board of Health working with the Police Chief has adopted regulations regarding drug paraphernalia sold in stores in town. This will go into effect in January.

Selectmen's Concerns. **Selectman Melia 1)** mentioned that he received a letter from Walter Warchol, Chief of Police, commending Sergeant Brian Patrinely for solving the armed robbery cases in Northbridge/Uxbridge. **2)** Wished all the Northbridge residents a Merry Christmas and Happy New Year. **3)** Sent condolences to all the Newtown families who lost their loved ones in the Connecticut tragedy. **Selectman Ampagoomian 1)** Suggested moving forward with looking to build a new Fire Station. **2)** Asked Town Manager Kozak to stay on top of the Ross Rajotte Bridge issue. **3)** Thanked Town Manager Kozak for getting in touch with the appropriate people to lower the flags in honor of the victims in the Connecticut tragedy. **Selectman Nolan/**Concurred with Selectman Ampagoomian on the Ross Rajotte Bridge issue because the Sutton Street project is beginning soon and then there could be a bottleneck issue. **Selectman Athanas/** DPW facility – suggested putting a shed roof on to an existing structure to cover up some of the equipment, ex. chipper. **Selectman Marzec 1)** Sent his condolences to Newtown, CT. **2)** Wished everyone a Merry Christmas and Happy New Year.

Town Manager Kozak announced that the Superintendent of Schools will be scheduling a Crisis Intervention meeting as soon as possible due to the Connecticut tragedy.

A motion/Mr. Ampagoomian, seconded/Mr. Marzec to adjourn the meeting. Vote yes/Unanimous.
