SEWER SYSTEM

SCHEDULE OF RATES FOR SEWER SERVICES
QUARTERLY BILLING CYCLE

Effective Date: July 1, 2009

WINTER QUARTER BILLING RATES

The rates for sewer services will be:

For usage of 800 cubic feet or less per quarter	\$ 60.50
For the first 900 to 2,000 cubic feet used or fraction thereof	\$ 89.18
For each additional 100 cubic feet thereafter	\$ 6.25

Each sewer service shall be billed in accordance with the above rate schedule. Each customer's quarterly usage shall be determined using 100-percent of the winter quarter metered water consumption figure to arrive at sewer usage. The winter quarter is defined as those water billing cycles ending in the months of January, February and March of each calendar year. Each customer's winter quarter water consumption shall be the basis for sewer service charges for the remaining billing cycles of the calendar year.

Sewer system customers who do not have metered water service shall be billed \$89.18 per quarter unless they can provide definitive proof that their quarterly usage is 800 cubic feet or less per quarter.

New sewer customers or customers who do not have an established winter quarter water consumption record shall be billed \$89.18 per quarter until winter quarter water consumption has been established.
